KETTLE NOW ON HEAR AN RE ILL G. AND E I'M L BE MY FISH BOUGHT UNTIL MORNING.

SUCH NERVE! THOSE PEOPLE WILL HAVE TO LEAVE HERE. AND I ONLY HOPE THAT GLADIOLA, IN HER SUGARY MANNER, TRIES TO KEEP ME FROM GOING INTO DETAILS.

I KNEW THERE WUZ A DRAW-BACK TO IT.

I THINK YOU OUGHT TO SEE A DENTIST.

BLOW ME DOWN, KING! WHERE'S YER FINGER NAIL?

AW-DONT GET SO PERSONAL.

ALL RIGHT, FE, I GOT A NUMBER.

DOGGOS! DOG! A'S JUST ADVISED MY FEET, WHICH WE SHALL CALL POINT B'S, TO TAKE BOTH POINTS TO POINTS WEST!

Now is really crazy. The world is going to fly!

JUDGES GET STATE POLICE TO HELP CLOSE DOG TRACK

Governor Sends Squad of 20 to Protect Officers Who Will Try to Seize Rabbit.

'NO RACES TONIGHT,' JURISTS ANNOUNCE

Special Grand Jury Ordered to "Go Straight Through Like Bullet No-Matter Who Gets Hit."

A squad of more than 20 Illinois State policemen were sent to Edwardsville today by Gov. Emmerson and placed at the disposal of Circuit Judges Bernreuter and Miller to protect their officers in any action they take against the dog track of the Madison Kennel Club, near Collinsville.

Judges Bernreuter and Miller announced "the races will not be run tonight" after a conference with Walter Moody, superintendent of the State police. They said their special officers, provided with a search warrant for gambling paraphernalia and the electric rabbit used at the track, would serve it at the track sometime today, under the protection of the State police.

Judges wired Governor.

The State police arrived in answer to a telegram the judges sent Gov. Emmerson last night, stating the Sheriff, Coroner and other law enforcement officers of Madison County refused to serve lawful process issued to close the dog track.

"Public Justice requires immediate service of such process or an admission the law will not be enforced in this county," they stated.

The officers arrived shortly after Circuit Judge Louis Bernreuter had instructed a special grand jury, convened to consider the dog track situation, to make a "thorough investigation to determine whether a large number of persons are working in harmony and conspiracy to aid and promote this and other notorious gambling institution."

Judge suggests graft.

"The promoters of this concern have grown wealthy," Judge Bernreuter said, "and this enormous profit seems to have been spread generally with many persons of political influence. Its payroll apparently has reached the pockets of all kinds of people who in turn feel they should do something to keep it from their concern."

"This gambling institution has been in power, wealth and political influence until now it undertakes to dictate to and control the law-enforcing agencies of this county."

Judge Bernreuter told the special grand jury that the regular grand jury "entirely disregarded" instructions to investigate gambling in the county and said that "today one of these gambling establishments is open and business is being done in the process and writs of injunction."

Orders through of court.

After expressing confidence in the integrity of the grand jurors, Judge Bernreuter instructed them to go into this matter thoroughly to matter where the chips fly—go straight through like a steel bullet no matter who gets hit.

"The fair name of Madison County has lost much of its reputation throughout the country," Judge Bernreuter concluded, "by reason of having become a safe place for all kinds of public and private gambling. It is time to take the house, men, do your full duty without malice, fear or favor."

E. W. Hilker of Madison, a building material dealer was made foreman of the special grand jury. He made the affidavit that parimutuel betting was conducted at the track which accompanied a petition for a closing injunction issued last week at Judges Miller and Bernreuter.

Judges Bernreuter and Miller granted a recess to the jury this morning until Sept. 21 after it submitted a preliminary report stating that gambling was conducted at the kennel club and requesting time to obtain witnesses preliminary to conducting the rest of its investigation. It called upon the public to co-operate in furnishing information. The report was signed by Foreman Hilker.

Prior to the convening of the special grand jury, Judges Bernreuter and Miller, who have attempted vainly to close the dog track and their associate, Judge Jesse B. Brown of Alton, issued a temporary injunction 12 days ago restraining Sheriff Fitzgerald and State's Attorney Behm from interfering with it. Issued a new order of appointment for Courtney C. Nelson of Cairo as Special Prosecutor, giving him carte blanche

PACIFIC FLYERS OVERDUE AND UNREPORTED; COAST GUARD TO SEARCH FOR THEM

Orders Sent to Bering Sea Patrol—Moyle and Allen Had Fuel for 47 Hours for Japan-Seattle Flight.

PLANE FROM SHIP SAVES 27 HOURS IN MAIL DELIVERY

Flies 1275 Miles to New York from Deck of Steamer Europa at Sea.

By the Associated Press.
NEW YORK, Sept. 27.—A mail-laden airplane that was catapulted from the deck of the liner Europa 1275 miles from New York landed here at 7:55 a. m. today in what was believed to be the fastest delivery of trans-Atlantic mail via ship and plane.

The plane, piloted by Joachim Blankenburg, German aviator, effected a saving of about 27 hours for the Europa will not dock here until tomorrow afternoon.

Leaving the deck of the liner at 11 a. m. yesterday about 600 miles from Sydney, Cape Breton Island, the aerial postman refueled at Sydney and then made the 675-mile journey to New York with one stop at Bridgeport, Conn., at 6:25 o'clock this morning for additional fuel.

By the Associated Press.
NEW YORK, Sept. 27.—The Department of Commerce reported today that the establishment of the recent credit to Great Britain and the announced intention of the new Government to balance the budget "has revived confidence somewhat." Its weekly review explained, however, that "no basic change has occurred in the British situation." The review said no signs of a general recovery were shown in other sections of the world.

"Czechoslovakia continues to show good resistance to the general crisis and unemployment has shown somewhat more than a seasonal decline," says the review.

"Crop harvesting has progressed satisfactorily in Canada and there has been some improvement in the wholesale trade in Ontario."

"The retail trade in Japan is suffering heavily from the depression."

"Although changes in actual business are slight in India, a better feeling has been observable during the past two weeks."

"The new wool season opened in Australia with prices five to ten per cent lower than closing prices last season and although continental demand was light prices remained steady."

WORLD ECONOMIC CONDITIONS LITTLE CHANGED, REPORT SAYS

Commerce Department Finds Credit to England Has 'Revived Confidence Somewhat.'

By the Associated Press.
WASHINGTON, Sept. 2.—The Department of Commerce reported today that the establishment of the recent credit to Great Britain and the announced intention of the new Government to balance the budget "has revived confidence somewhat." Its weekly review explained, however, that "no basic change has occurred in the British situation." The review said no signs of a general recovery were shown in other sections of the world.

"Czechoslovakia continues to show good resistance to the general crisis and unemployment has shown somewhat more than a seasonal decline," says the review.

"Crop harvesting has progressed satisfactorily in Canada and there has been some improvement in the wholesale trade in Ontario."

"The retail trade in Japan is suffering heavily from the depression."

"Although changes in actual business are slight in India, a better feeling has been observable during the past two weeks."

"The new wool season opened in Australia with prices five to ten per cent lower than closing prices last season and although continental demand was light prices remained steady."

CONVICT, GUARD KILLED IN RIOT AT SALT LAKE CITY

Former St. Louis Gangster Shot to Death Scaling Wall—Watchman Fatally Stabbed.

KNIVES AND BOMBS USED BY FELONS

Deputy Warden, Captured by 12 Prisoners Refuses to Obey Orders and Thwarts Revolt.

By the Associated Press.
SALT LAKE CITY, Sept. 9.—One convict was killed, a guard was fatally wounded and four others were injured in an outbreak today in the Utah State penitentiary. The convicts used prison-made bombs and knives. Louis Deathridge, 29 years old, one of the ring leaders, a former St. Louis gangster, was shot and killed as he attempted to scale the wall. C. L. Christensen, a guard, died of knife wounds; Deputy Warden Wilford F. Giles was cut in the hand, and another guard and two convicts received black and blue marks and gunshot wounds.

Louis Deathridge, serving a robbery sentence, was shot down by L. W. McTavish, a guard in a lookout tower on the wall, as he was scaling a rope ladder attached to an iron hook which he had thrown over the top. Deathridge's body was dragged by a convict into a cell house, where the mutinous prisoners were gathered.

Guards held prisoner were released after Warden R. E. Davis, braving the rioters, went into the cell houses and persuaded them to free the officers.

Convicts Surround Deputy.

A dozen convicts surrounded Giles when he entered the cell house and demanded that he produce the Warden. When he refused, F. C. Hertel, a convict, ran into the prison yard and hurled a brick at the roof of the lookout tower on the northeast corner of the wall. Its explosion was a signal to other convicts and the riot was on.

McTavish, in the northeast tower, fired at Hertel and the convict took cover. Deathridge then was shot down when he made his break for liberty.

Escaping the bonds with which the convicts had tied him, the Deputy Warden ran into the prison yard in an effort to draw the rioters into the line of the guard's fire. The guards sent a stream of bullets into the cell houses, keeping the convicts inside.

Second Attempt at Escape.

Hertel, regarded as the leader of the attempted break, is serving a sentence for assault with a deadly weapon. He recently tried to escape by digging the plaster from the wall of his cell with a needle, and has been kept in solitary confinement ever since.

Deathridge was armed with a pistol, which he was prevented using on the Deputy Warden because of convicts grouped closely about him during the parley. The rioters carried long prison-made knives.

Giles' coolness in refusing the prisoners' demand that he produce the Warden, and that he order the guards off the walls into the prison yard was regarded as having thwarted the mutiny.

Police, Deputy Sheriffs and firemen responded to a riot call from the prison and climbed on ladders to the top of the wall, where they reinforced the guards.

Warden Davis said the convicts have been under strict surveillance for two months, in anticipation of an attempted break. Several months ago a high warden wire fence was erected around the west and north side of the prison, outside the wall.

Convict Slain Was Former St. Louis Gangster; Convicted Here.

Louis Deathridge, alias Louis Hoover, was a former St. Louis gangster, and was convicted here in 1925 on a robbery charge. He admitted at the time of his arrest in Salt Lake City, Utah, last December that he had participated with two others in the \$3600 hold-up of the Grafton State Bank, Grafton, Ill., Sept. 22, 1930, and he was wanted for another robbery in Madison, Wis.

His arrest followed a revolver fight with a Salt Lake City police officer in an attempted grocery holdup, during which Deathridge was wounded five times. While being held in jail awaiting sentence, he and eight other prisoners escaped for a day but were recaptured. He was serving a sentence of 5 to 30 years for robbery. Records here indicate his age as 26 and the last address he gave was on North Nineteenth street.

BRITISH CABINET ASKS FOR POWER TO RULE BY "ORDERS IN COUNCIL"

England's National Cabinet Named to Meet the Country's Crisis

MEETING for the first time with Prime Minister MacDonald at No. 10 Downing street. From left, seated: PHILIP SNOWDEN; STANLEY BALDWIN; MACDONALD; SIR HERBERT SAMUEL; and LORD SANKEY; standing: SIR PHILIP CUNLIFFE LISTER; J. H. THOMAS; LORD READING; NEVILLE CHAMBERLAIN and SIR SAMUEL HOARE.

WALKER'S AID'S STOCK DEALS UNDER INQUIRY

New York Legislative Committee Investigating Brokerage Account of Bookkeeper.

By the Associated Press.
NEW YORK, Sept. 9.—A stock brokerage account of Russell T. Sherwood, Mayor Walker's personal bookkeeper, was under inquiry today by the Legislative Committee investigating municipal departments.

The committee is curious about the source of securities which it suspects Sherwood put up for the Mayor during decline in stocks.

The account gave little information except to indicate that Sherwood had other brokerage accounts and a bank account. Mayor Walker's own accounts were obtained prior to his departure for Europe.

Sherwood is sought for questioning by the committee. He has said he will await Mayor Walker's return before returning to New York to testify. He was heard from at Atlantic City, but has left there.

Samuel Seabury, counsel for the committee, said he had no immediate intention of summoning the Mayor as a witness.

Seabury intends to investigate charges that only unemployed persons loyal to the Democratic party have been able to obtain relief jobs on Staten Island. Records of the Richmond (Staten Island) borough president's office, which is in charge of the relief, have been subpoenaed by Seabury.

ALABAMA POLICE CHIEF AND EX-MAYOR KILLED

Hands on Shoulders, Face to Face, They Shot It Out in Hartford Street.

By the Associated Press.
HARTFORD, Ala., Sept. 9.—Chief of Police J. C. Rood and former Mayor J. H. Radford shot each other to death on the main street here today after a quarrel over operating a road scraping machine in front of Radford's home.

Witnesses said the men met in front of Rood's office and after exchanging a few words, each placed his left hand on the other's shoulder and began firing pistols in their right hands.

A pistol of curbing was broken by the scraping machine in front of Radford's home and it was whistled they were arguing over this that the shooting took place.

19 MEN HELD IN PLOT TO BLACKMAIL ALIENS

Smugglers Got \$20,000,000 From 8000 Illegally in U. S. Officials Say.

By the Associated Press.
NEW YORK, Sept. 9.—Nineteen men have been arrested in an investigation of a ring which, Federal officials say, has smuggled 8000 foreigners into the United States for fees totaling \$20,000,000.

The Department of Justice and the Department of Labor have been co-operating in the inquiry for six months. The scheme of the smugglers, officials say, was to change each alien \$200 to \$5000 to bring him to this country and then to blackmail him after arrival on threat of deportation.

Disclosures were made at the Federal District Attorney's office yesterday upon arraignment of Benjamin Friedlander, a New York attorney, and Joseph Kogan, a Canadian. They were charged with conspiring to bring an alien into this country from Canada.

There have been several arrests during the last week of employees of steamship lines and clerks at the Ellis Island immigration station and at the barge offices in New York.

Secretary of Labor Deak gave an indication of the round-up during a Labor day address in Tennessee when he said that 20 or more persons would soon be arrested.

LOUIS K. CLOTHIER IS KILLED WHEN PLANE FALLS IN QUARRY

By the Associated Press.
PRINCETON, Ill., Sept. 9.—Louis K. Clothier, member of a socially prominent Philadelphia family, and Lieut. Thoburn ("Tooby") Maxwell of the Pennsylvania National Guard, were injured fatally last night, when their plane crashed into a quarry, near Norristown. Clothier died almost instantly as the plane struck the top of the quarry and fell more than 100 feet to the bottom. Maxwell died four hours later.

P. S. CO. SUMS UP PLEA FOR 10 PCT. WAGE REDUCTION

Says in Brief to Board of Arbitration That Fare Rise or Reduced Service Is Out of Question.

UNION'S ARGUMENTS DUE BEFORE SEPT. 18

Conflicting Statements and Testimony at Hearing Then Will Be Used in Reaching Decision.

The Street Car Men's Union will submit its brief, in opposition to the proposed 10 per cent reduction in wages of Public Service Co. employees to the Board of Arbitration before Sept. 18. The arbitrators, Harry E. Sprague, former Mayor Henry W. Kiel and Edward J. Miller, received yesterday the brief and argument of the company, asking that the reduction be granted.

The two conflicting briefs, together with the testimony heard by the arbitrators recently on both sides of the controversy, will be considered in reaching the decision. The present wage scale for motormen and conductors is 69 cents an hour, which would be cut to 62.1 cents by the proposed new scale. In addition, the union asks for an increase of 10 per cent in the wages of the differential of 7 cents paid to one-man car operators. The company has asked that a decision be reached by Oct. 1.

Thomas E. Francis and associate attorneys for the Public Service Co. prepared the company's brief. It reviews the evidence, and asserts on the basis of the evidence, "that the present earnings of the company are not sufficient to meet the requirements for operation, taxes, interest on indebtedness and depreciation." It says the company is faced with three alternatives, which are:

(1) To increase the fare, now 10 cents, with a lower rate to buyers of commutation tickets.
(2) To reduce service and further reduce maintenance costs.
(3) To reduce wages.

Doubt as to Fare Rise.
The first alternative, the company says, is rejected because it would be of doubtful effectiveness. It would unfairly place the burden of maintaining the present wage level of the employees of this company on others whose wages and incomes have already suffered a decline, and whose expenses should not, therefore, be increased to maintain a wage scale which is out of line with their reduced wages and incomes.

The second alternative would result in a further decline of patronage and would impair the reliability and safety of the service to the great prejudice and inconvenience of the public.
"The only alternative left is the reduction of wage rates," the brief says. "It will not be necessary to go behind the returns of the past seven months. The decline in revenue and gross income during that period has been so rapid and so severe that what before that time had been a threatening cloud has now become a violent storm of such proportions as to threaten to engulf the company. So bad have conditions become that it will be impossible for the company much longer to continue its operations unless it be granted immediate relief."

Net earnings for various periods since the company took possession of the property in December, 1927, are compared with the amounts which it is held the company should have received at the 7.14 per cent rate, and the difference is spoken of as a "deficit."

Rate Paid at 3.99 Per Cent.
For the period from Jan. 1, 1928, to July 31, 1931, the average annual return earned on a \$48,500,000 rate base has been 3.99 per cent, the brief says. If the disputed item of depreciation were adjusted in accordance with the Public Service Commission's ruling, at \$500,000 a year, there would be a yearly average "deficit" of \$1,433,516, or 2.36 of the proper return, the company says.

"If the company is to continue to carry on," the brief says, "it is necessary that it earn enough, to pay: (a) direct operating expenses, including expenditures necessary to keep the property in a state of normal operation; (b) taxes; (c) interest on indebtedness; and (d) a sufficient amount to compensate for wastage and reduction in value of its property."

Taking up these matters in order, the company quotes testimony, chiefly that of Stanley Clarke, its president, to show that maintenance is being deferred in a manner which cannot be continued indefinitely; that taxes are unpayable items, take \$1,500,000 a year, or 3.74 per cent of gross revenue; that the annual interest on its debt is about the same as taxes; and that the best accounting method has shown depreciation, which has been shown as 2.5 per cent a year.

"The evidence shows," it is stated, "that present earnings are not sufficient to meet operating expenses, taxes, interest on indebtedness and depreciation. Gross operating revenue for the first six months of 1931 declined \$1,500,000 from the corresponding period last year. For July, as compared with a year ago, revenue decreased \$194,000, and the company's net loss, in the red after setting up interest, was \$48,875."

"No Past Prosperity."
"It would be idle to assert that relief should be denied because of past prosperity. But there has been no past prosperity. You cannot pay present wages with meager past earnings, which have been spent."

For the period from the beginning of 1928 to the end of last July, 3 years and 7 months, the company shows gross income of \$8,074,132, of which \$5,327,215 went to payment of interest, \$1,258,832 to payment of dividends on preferred stock, and \$1,187,923 was surplus earnings, and was "re-invested in the property."

"While it is true," the company says, "that the net worth of the company has not been increased through the purchase of its own securities, it is likewise manifestly true that the surplus thus created (the difference between par value and purchase price) is not an asset available for payment of wages, purchase of supplies, or liquidation of an obligation."

The other principal point discussed in the brief is the question of the employees' needs. "Independently of any consideration of the company's financial necessities," the brief says, "the wage rates of its employees should be reduced, for these reasons:
"The hourly rate of wages is high compared with those paid for similar services in the majority of cities in the United States. Companies which pay a higher rate are operating in cities where special conditions exist, tax exemption, service at cost, etc.
"Union and non-union men must be considered alike in any wage determination.
"Declares Work Is Steady."
"This is an industry where work is steady, opportunities for employment are greater than in almost any other, and seasonal fluctuations are practically unknown. The annual earnings stamp this as a preferred industry, and the annual earnings of employees compare favorably with those of many workers in manufacturing industries, and are sufficient to maintain a reasonable standard of living.
"The trainmen of this company take off more than one day a week, and still are earning a living wage, much more in excess of the average industrial worker. The productivity of the company's trainmen, measured by car miles per man and revenue passengers per man, has decreased since 1927.
"Cost of living has fallen in St. Louis 11.43 per cent since the last wage determination, therefore the purchasing power of wages has increased to this extent. Under the proposed rates of pay, the employees of this company will still enjoy a rate higher than that paid in the great majority of American cities for similar work, and with a 10 per cent reduction they will still be better off than they were at the height of the country's prosperity in 1929, and better off than the majority of their fellow American citizens, who must be presumed to be earning a living wage."

Lindberghs Arriving at Nemuro

COL CHARLES A. LINDBERGH and his wife arriving on Aug. 24 at the Nemuro, Japan, dock by launch, after leaving their plane in the harbor. They had flown by stages to Nemuro from the United States.

BRUNK CHECKS HOUSE CLERICAL PAYROLL

Investigating Payments by Last House, Questions Representative Riley.

By the Associated Press.
JEFFERSON CITY, Sept. 9.—State Treasurer Larry Brunk announced today he had questioned State Representative J. A. Riley (Dem., Schuyler County), regarding \$4000 of State warrants issued to names on the clerical payroll of the House of Representatives. Riley was chairman of the House Clerical Committee in the 1931 session of the Legislature. Brunk said he saw Riley at his home in Lancaster yesterday and inquired particularly about nine names on the clerical payroll.

Brunk exhibited an affidavit from a young woman legislative employee that she had cashed 35 warrants totaling \$1750 at the direction of Riley.
"Riley was unable to give the addresses of these clerks," said Brunk.
Riley, according to Brunk, said he had merely cashed the warrants and had them cashed as an accommodation and turned the money over to the clerks to whom the warrants were payable. State warrants for legislative clerks do not carry the address of the payee. Brunk has been investigating the affairs of the House of Representatives for several weeks.

In a recent statement Brunk announced he intended to conduct a thorough survey of the accounts of the 1931 House, charging excessive expenditures by that group for clerical help during the General Assembly.

MURIEL MCCORMICK ENGAGED TO WED ELISHA D. HUBBARD

Rockefeller's Granddaughter and Her Fiance Both in Maine; No Wedding Date.

By the Associated Press.
CHICAGO, Sept. 9.—Muriel McCormick, granddaughter of John D. Rockefeller and prominent in Chicago society, has become engaged to Elisha D. Hubbard of Middletown, Conn., her mother, Mrs. Edith Rockefeller McCormick, announced today.
Mrs. McCormick said the announcement came in a letter from Mr. Hubbard, who is now in the city. Mr. Hubbard, who is a member of the House of Representatives, is the son of a prominent family. He is a graduate of Harvard University and has been in the city for some time. The engagement was announced today.

The date and place of the wedding had not been set, it was said. Hubbard's family has a summer place at Indian Point, Me.
Miss McCormick went on the stage in 1922, using the name of Nawanna in a few plays. Last April she played Mona Lisa in "The Face" at the Palm Beach playhouse in West Palm Beach, Fla. For 10 weeks previously she had been touring with the company and its theater containing 299 seats.

NORTH CAROLINA BANKER SHORT

By the Associated Press.
RALEIGH, N. C., Sept. 9.—The Marine Bank of North Carolina was ordered closed today by Governor P. H. Hood, Commissioner of Banks, who said he was informed that W. U. Mallison, assistant cashier, had admitted a shortage of an undetermined amount.

Simpson (Pa.) Bank Closed.
SCRANTON, Pa., Sept. 9.—The Simpson State Bank at Simpson, Lackawanna County, was closed today and taken over by the State Banking Department.

It asserts that consumption of alcoholic beverages has increased more than 50 per cent since prohibition was inaugurated in Finland 12 years ago and it says the law has not the support of the people.
The number of persons sentenced for violation is steadily increasing, the judges say, and a general contempt for law and order has grown up throughout the country, especially in the rural districts.
The report says the supply and misuse of intoxicants is growing to an alarming extent and it constitutes a menace to the moral and physical future of the nation.

MIKADO DECORATES LINDBERGH
Confers Third Order of Merit With London of Rising Sun.
TOKYO, Sept. 9.—The Emperor of Japan has conferred on Col. Charles A. Lindbergh the decoration of the Third Order of Merit With Medium Cordons of the Rising Sun.
An announcement said the decoration, of which less than 800 have been given, was bestowed in appreciation of the impetus given aviation in Japan by the visit of the American flyer and his wife.

HOT WEATHER IN MINNESOTA
Mercury Rises 100 at Fargo Falls, 90 in Minneapolis.
By the Associated Press.
ST. PAUL, Minn., Sept. 9.—Hot weather in the Northwest yesterday sent temperatures to new high September marks.
Fargo Falls, Minn., reported 100 degrees. In Minneapolis the maximum was 90.

Lord Shannon, 40 years old, of Elmwood, Wis., succumbed to heart disease, aggravated by heat, while working in a cornfield.

British Cabinet Asks for New Power

Continued From Page One.

legislation that is expected to start new taxes rolling into the depleted treasury.
Demonstration—Teachers Protest Proposed Pay Cut.
While the vote was being taken, a large crowd took part in an unemployment demonstration outside the houses of Parliament and 17 persons were arrested when police cleared the streets.

These demonstrators sang the "Red Flag" and jeered mounted and foot police who attempted to restore traffic lines. No organized attempt was made to enter the Commons. One man was charged with assault and another with doing so was pushed on by police.

There were shouts of "Down with MacDonald!" and a number of members of the group sold pamphlets denouncing the Government. The mounted "bobbies" backing their horses into the crowd, the demonstrators were in the crush.

Today a crowd of unemployed was dispersed by police in front of the Bow Street Police Court, where charges were being heard against the persons arrested as a result of the demonstration last night. Sixteen men and one woman were charged with assault and disorderly conduct. Fines for obstructing police were imposed in some cases. Other prisoners were sentenced to a month at hard labor. The woman, Muriel Guest, was bound over for 12 months.

Three thousand London school teachers will march through the city on Friday as a protest against a proposed 15 per cent salary cut in the interest of national economy. The police are planning a demonstration in the same cause on Sunday.

The teachers' parade, beginning on the Thames embankment, will proceed to the soap-box forum in Hyde Park. The teachers and the first professional group to break with tradition and parade as the unemployed have done.

Dr. MacDonald's speech, in the House of Commons, was a masterpiece of the interdependence of the international world of finance, with the monetary standards of France and the United States involved, would have saved the British pound, and maintained the threat to its security. "In their own interests these elements would never have dared to let British credit fail," the new leader of Labor declared.

A Revolutionary Change.
"Little did we think," MacDonald said, "when we bowed each other good-by on July 21, that the next meeting of Commons would show this revolutionary change" (in political lineup).

He told how in 18 days \$4,000,000 (\$170,000,000) was withdrawn from the Bank of England owing to the shaken faith in British credits.

A typhoon was approaching, and unless averted, it would pass over, leaving widely spread wreckage behind," the Prime Minister said. "There was no time for fiddling while Rome burned."

"The only problem was to restore some confidence, to stop the drain, to secure the loan necessary to give us a chance to rebuild our finances."

Criticism of banking system and of all debts and reparations could come later, he said; none of them could be overlooked. He told of the effect of the world depression on Great Britain, of imports that exceed exports, and of the danger of getting into the position of paying for imports from capital by printed paper.

The steady weekly compilation of unemployment figures affected confidence, he explained, and financial.

too, has read himself out of his party by standing with MacDonald. MacDonald spoke first, laboring under great stress of feeling. Once he broke down altogether. He was explaining the difficulties the nation had faced when the new Government was formed and was in the midst of the phrase, "The country had to go," when a Laborite interrupted with the taunt, "Get rid of you."

MacDonald paused and looked about helplessly. He forgot where he was in his speech. Then Snowden touched his chest on the arm and whispered, MacDonald pulled himself together.

MacDonald, Henderson, Winston Churchill, Stanley Baldwin, Sir Herbert Samuel, James Maxton and a dozen others participated in the debate, but it was MacDonald and Henderson who covered the whole field of the British crisis.

The Prime Minister's argument was that Great Britain never faced a more real and urgent crisis. When the gold reserves of the Bank of England slipped away and British credit was threatened with collapse his only path, he said, was the one he took when most of his Labor Cabinet deserted him—the path that led to the establishment of the national Government.

MacDonald said the pound at the crisis was in danger of collapse. Instead of being a 20-shilling pound, it would have been worth only 10 shillings had not swift and decisive action been taken.

Calling upon the nation to bear a burden of sacrifice equitably distributed, he announced that \$500 a year would be cut from his own salary of \$25,000.

Henderson insisted no sacrifice was worthy of the name if it included further reductions in the wages of living of the nation's workers. He agreed the budget should be balanced but contended that the whole question should be approached in a different manner.

He refused to believe the threatened crisis was as serious as MacDonald indicated, and maintained that the interdependence of the international world of finance, with the monetary standards of France and the United States involved, would have saved the British pound, and maintained the threat to its security. "In their own interests these elements would never have dared to let British credit fail," the new leader of Labor declared.

5 KILLED IN EXPLOSION IN BENTON, ILL., PLANT

Another Hurt at Factory Which Makes Shells for Blasting Coal.

By the Associated Press.
BENTON, Ill., Sept. 9.—Five men were killed and one seriously injured in an explosion which destroyed the powder house of the Safety Mining Co. plant here at 3:20 a. m. today.

Officers of the company, which makes carbox shells used in blasting coal, said 10 men were working in the powder house when the powder ignited and fire swept the building. Four men, they said, escaped injury.

The men who were killed are: Herbert Smith, 19 years old; Joe Haskins, 20; Carl Mooneyhan, 20; Randolph Scarborough, 20; and James Doherty, 21, all of Benton. The injured man is Aden Ottelson, 21. All of the dead and injured are from Benton.

Aden Ottelson, 21, of Benton, was seriously hurt.

Mooneyhan and Smith were instantly killed. Haskins, Scarborough and Doherty died in the hospital.

Company officers were unable to give the cause of the blast.

HELD IN DEATH OF LODGER

By the Associated Press.
DETROIT, Mich., Sept. 9.—Mrs. Rose Veras and her son, Adam, were ordered held for trial today at the conclusion of their examination on a charge of slaying Steve Mak, a lodger in the Veras home.

Mak was one of 12 men to die in the Veras home during recent years. The State charges that Mrs. Veras either pushed or arranged to have Mak pushed to his death from an attic window of her home after attempts to poison him had failed. The lives of most of the men who died in the Veras home, including Mak, had been insured by Mrs. Veras.

achieve the objects for which this Government was created."

Newspaper View of Situation.
London and provincial newspapers, with one exception, support the Prime Minister's view of the situation, stressing his point that, while the formation of the National Government has gained a breathing space for the nation, the emergency will continue until a program is put into effect.

But the Daily Herald, Labor's mouthpiece, said MacDonald had committed himself and was trying to commit the country to a "bankers' policy which is not only one of class injustice but of national disaster. He failed to show that capitulation to the demand of British and foreign bankers was the only possible emergency measure."

Transfer Agreed To.
Reviewing the testimony in a series of hearings, Elder pointed out that when Moss attempted on Jan. 19 to transfer his account, Edwin Hilmer, a partner in the Anderson firm, contended the concern was solvent and would continue in liquidation. Upon Moss' insistence, Auditor Emory D. Jones consented to transfer the account as soon as possible.

The transfer was never made because the Anderson company could not furnish cash or additional securities to release the Moss stocks from banks or brokers where they were held as security for loans to Lorenzo E. Anderson & Co. When the company refused to sell the Anderson company to E. A. Pierce, New York financier, failed, the firm was thrown into receivership, Jan. 22.

The testimony disclosed, Elder reported, that on Jan. 22, 23 and 24 most of the claimants' securities were sold without notice by banks and brokers, correspondents of the Anderson firm. The claimant did not know until Feb. 13 or 14 which stocks he had been sold and had no information of the prices obtained until Feb. 16.

Rules There Was Conversion.
"From the foregoing," the report continues, "we are according by constraint to additional securities to the claimants which were sold by the pledges of Anderson & Co. on Jan. 22 and 23, there was a conversion."

In fixing the price at which Moss and his group should be paid for stock held in their accounts at Lorenzo E. Anderson & Co., Elder fixed the market price as of Feb. 16 and 17, as that was the date they were advised the securities were sold.

The Reorganization Investment Co., a liquidating group comprised of large creditors and investors in the Anderson company, had offered Moss and customers with similar claims payment for their stocks on the basis of the low market values prevailing when the securities were sold.

As the stock had advanced in price between this time and the later notice to Moss, the group refused to accede to a liquidation plan now in effect. Elder's report will be passed on by Circuit Judge Hartmann at an early date.

\$171,000 CLAIM APPROVED AGAINST L. E. ANDERSON CO.

Commissioner Holds R. Morton Moss, Representing Customers, Is Entitled to Recover.

FINDS 'UNWILLFUL CONVERSION' BY FIRM

When It Was Put in Receivership Customers' Stocks Were Sold Before Owners Could Protect Them.

The \$171,379 claim of R. Morton Moss, former customer, against Lorenzo E. Anderson & Co., brokerage firm whose frozen assets forced it out of business last January, was approved by Special Commissioner Conway Elder in his report filed yesterday in Circuit Court.

Moss' claim represents his own and other customers' losses suffered when their stocks, held as collateral for their accounts at the Anderson company, were sold when the company was put into receivership without allowing the owners of the stock to protect it against the forced sale and resultant loss.

Elder ruled that the sale of stocks owned by the Moss group constituted an unwilling conversion on the part of the brokerage company, as Moss had attempted to transfer his account to another firm, but had been dissuaded from doing so by partners and employees of Lorenzo E. Anderson & Co., who were attempting to prevent a disastrous run on the firm.

The conversion, Elder added, "does not favor of malfeasance or any abuse of a fiduciary position" on the part of the partners of Lorenzo E. Anderson & Co.

As has been told, many stocks in the customers' accounts of Anderson & Co. were sold by banks and financial concerns with which they were posted by the brokerage firm as collateral for loans. With the suspension of business at Anderson's, several days before receivership, large blocks of these stocks were sold on the then depressed market.

Transfer Agreed To.
Reviewing the testimony in a series of hearings, Elder pointed out that when Moss attempted on Jan. 19 to transfer his account, Edwin Hilmer, a partner in the Anderson firm, contended the concern was solvent and would continue in liquidation. Upon Moss' insistence, Auditor Emory D. Jones consented to transfer the account as soon as possible.

The transfer was never made because the Anderson company could not furnish cash or additional securities to release the Moss stocks from banks or brokers where they were held as security for loans to Lorenzo E. Anderson & Co. When the company refused to sell the Anderson company to E. A. Pierce, New York financier, failed, the firm was thrown into receivership, Jan. 22.

The testimony disclosed, Elder reported, that on Jan. 22, 23 and 24 most of the claimants' securities were sold without notice by banks and brokers, correspondents of the Anderson firm. The claimant did not know until Feb. 13 or 14 which stocks he had been sold and had no information of the prices obtained until Feb. 16.

Rules There Was Conversion.
"From the foregoing," the report continues, "we are according by constraint to additional securities to the claimants which were sold by the pledges of Anderson & Co. on Jan. 22 and 23, there was a conversion."

In fixing the price at which Moss and his group should be paid for stock held in their accounts at Lorenzo E. Anderson & Co., Elder fixed the market price as of Feb. 16 and 17, as that was the date they were advised the securities were sold.

The Reorganization Investment Co., a liquidating group comprised of large creditors and investors in the Anderson company, had offered Moss and customers with similar claims payment for their stocks on the basis of the low market values prevailing when the securities were sold.

As the stock had advanced in price between this time and the later notice to Moss, the group refused to accede to a liquidation plan now in effect. Elder's report will be passed on by Circuit Judge Hartmann at an early date.

The reorganization group raised \$2,200,000 to aid in a slow liquidation of the Anderson company assets, and a fund was set aside from which to pay claims of the Moss group and other creditors whose claims were not abated under the liquidation agreement.

The Moss group and its claims approved by Referee Elder, are: R. Morton Moss, as agent, \$113,425.31; R. Morton Moss special, \$42,719.31; O. W. Ficklin, \$2218.07; Blanche M. Alois, \$774.16; Idabel Soller, \$1024.29; Clara Stuckman, \$1866.28; Edna Ude, \$121.53; Florence M. Meyer, \$1769.52.

Referee Elder found Moss owed the Anderson company \$4935.98, which is deductible from the R. Morton Moss special account.

5 KILLED IN EXPLOSION
IN BENTON, ILL., PLANT

Another Hurt at Factory
Which Makes Shells for
Blasting Coal.

By the Associated Press.
BENTON, Ill., Sept. 9. — Five
men were killed and one seriously
injured in an explosion which de-
stroyed the powder house of the
Safety Mining Co. plant here at
9:30 a. m. today.

Officers of the company, which
makes carbox shells used in blast-
ing coal, said 10 men were work-
ing in the powder house when the
explosion occurred and the powder
building was blown into the air.

The men who were killed were:
Herbert Smith, 19 years old; Joe
Haskins, 20, Carl Mooneyhan, 20,
Randolph Scarborough, 20, and
James Doherty, all of Benton.

The injured man is Aden Otte-
lson, 21. All of the dead and in-
jured are from Benton.

Aden Otteelson, 21, of Benton,
was seriously hurt.

Mooneyhan and Smith were in-
stantly killed. Haskins, Scarbor-
ough and Doherty died in the hos-
pital.

Company officers were unable to
give the cause of the blast.

HELD IN DEATH OF LODGER
By the Associated Press.
DETROIT, Mich., Sept. 9.—Mrs.
Rose Veras and her son, Adam,
were ordered held for trial today
at the conclusion of their examina-
tion on a charge of slaying Steve
Mak, a lodger in the Veras home.

Mak was one of 12 men to die
in the Veras home during recent
weeks. The State charges that Mrs.
Veras either pushed or arranged to
have Mak pushed to his death
from an attic window of her home
after attempts to poison him had
failed. The lives of most of the
men who died in the Veras home
including Mak, had been insured
by Mrs. Veras.

to achieve the objects for which this

**\$171,000 CLAIM
APPROVED AGAINST
L. E. ANDERSON CO.**

**Commissioner Holds R.
Morton Moss, Represent-
ing Customers, Is Entitled
to Recover.**

**FINDS 'UNWILLFUL
CONVERSION' BY FIRM**

**When It Was Put in Receiv-
ership Customers' Stocks
Were Sold Before Own-
ers Could Protect Them.**

The \$171,000 claim of R. Mor-
tion Moss, former customer, against
L. E. Anderson & Co., broker-
age firm whose frozen assets
were sold out of business last Jan-
uary, was approved by Special
Commissioner Conway Elder in his
report filed yesterday in Circuit
Court.

Moss' claim represents his own
and other customers' losses sus-
tained when their stocks, held as
collateral for their accounts at the
Anderson company, were sold when
the company was put into receiv-
ership without allowing the
owners of the stock to protect it
under the forced sale and result-
ing loss.

Elder ruled that the sale of
stocks owned by the Moss group
constituted an "unwillful conversion
on the part of the brokerage com-
pany as Moss had attempted to
transfer his account."

Anderson had been disas-
sured from Moss by partners and employees
of L. E. Anderson & Co.,
who were attempting to prevent a
massive run on the firm.

The conversion, Elder added,
was "not a conversion of the stocks
of the firm, but a conversion of the
stocks of the firm as a whole," and
that the conversion was "unwillful
on the part of the partners of L.
E. Anderson & Co."

As has been told, many stocks
in the customers' accounts of An-
derson & Co. were sold by bank-
ers to transfer his account. Elder
said that while the formation of the
National Government has gained a
breathing space for the nation, the
emergency will continue until a
program is put into effect.

But the Daily Herald, Labor's
mouthpiece, said MacDonald had
committed himself and was trying
to commit the country to a "bank-
ers' policy which is not only one of
self-interest but of national dis-
grace. He failed to show that
capitalism to the demand of British
and foreign bankers was the
only possible emergency measure."

ST. LOUIS POST-DISPATCH

RAIL CHIEF RETIRES

**J. E. TAUSSIG QUILTS
AS PRESIDENT OF
WABASH RAILROAD**

**Retires, but Will Serve for
Time as Adviser—Penn-
sylvania Line Taking
Over Control.**

James E. Taussig, president of
the Wabash Railroad system, today
announced his resignation after
11½ years in that office, and his
retirement from active railroad
service. He resigned also the
presidency of the Ann Arbor Rail-
road, a Michigan subsidiary of the
Wabash.

"He has been requested, and
agrees for the present, to remain
the railroad's official representative,
"to devote some of his time in an
advisory capacity, and to continue
on the boards of the Terminal
companies in which the Wabash is
interested," Mr. Taussig stated in
a letter to the board of directors
devoting his time to personal af-
fairs."

Taussig's withdrawal as presi-
dent comes at a time when the
Pennsylvania Railroad is acquiring
control of the Wabash. The ac-
tion follows that of the Baltimore
& Ohio, competitor of the Penn-
sylvania, in acquiring the Chicago
& Alton, a competitor of the Wa-
bash.

Probable Successor.
While a successor has not been
named, it has been reported in
railroad financial circles for some
time that the man most likely to
be chosen is Walter W. Franklin,
assistant vice president of the
Pennsylvania, in charge of opera-
tions. Franklin, who resides in
Philadelphia, was president of the
Toledo & Ironton railroad until
its acquisition last year by the
Pennsylvania, and is vice presi-
dent of the Pennsylvania Railroad
Corporation, the Pennsylvania
Railroad's holding company.

Franklin told the Post-Dispatch
over the long-distance telephone
today that he knew nothing of the
report, and that he had never been
approached with an offer of the
presidency of the Wabash.

Taussig is 66 years old, a native
of St. Louis and a member of an
old St. Louis family, several of
whose members have attained pro-
fessional and business distinction.
A son of Edward Taussig, he was
educated abroad, studying in Lon-
don, Brussels and Darmstadt, Ger-
many. He returned to St. Louis in
1882 and began fitting himself for
a railroad career. His first job was
as freight clerk in the St. Louis
Bridge and Tunnel Co. office. He
went to a Kansas railroad, where
he learned telegraphy, and he
worked for the Missouri Pacific as
a dispatcher at Wichita. He rose
in telegraphic work to the position
of superintendent of telegraph of
the Wheeling & Lake Erie.

He was superintendent in termi-
nal yards up to 1915, when he be-
came assistant to the president of
the Wabash, the late Edward F.
Kearney. This appointment brought
him back to St. Louis. He became
vice president in charge of opera-
tion, and was in this position at the
time when the United States Rail-
road Administration took charge
of all railroads, as a war measure.

Under Railroad Administration
Taussig was Federal manager
in charge of the Wabash and of
the parallel and competing Toledo,
St. Louis & Western, or Clover
Leaf, Railroad. After the return
of the railroads to private owner-
ship he was elected president of
the Wabash Railroad, taking this
position in March, 1920. He later
became president of the Ann Arbor,
and of other subsidiary rail and
boat lines.

He represented the railroad in
the negotiations with the St. Louis
city administration which resulted
in the construction of Delmar viaduct
and Delmar passenger station
and the Lindell-Union crossing.

The Interstate Commerce Com-
mission last December ordered the
Pennsylvania Railroad to divest it-
self of holdings in the Wabash and
Lehigh Valley railroads within six
months, charging that acquisition
of stock in the two railroads by its
subsidiary, the Pennsylvania Co.,
was in violation of the Clayton
antitrust act.

The commission said the Wabash
held 231,329 shares of Lehigh Val-
ley stock and that the Pennsylv-
ania, through its holding company,
had acquired 675,800 shares of Wa-
bash stock and 265,033 of Lehigh
Valley stock.

On May 28 last, the Pennsylvania
Railroad and the Pennsylvania Co.
petitioned the United States Cir-
cuit Court of Appeals at Philadel-
phia to review and set aside the
order of the commission. The Pen-
sylvania Railroad interests are said
to own about 48 per cent of the
Wabash stock and about 36 per
cent of the Lehigh Valley stock.

WALTER H. HOFFMAN DIVORCED
Wife Obtains Custody of Child,
\$5000 Gross Alimony.

A divorce was granted to Mrs.
Virginia N. Hoffman, 7132 Water-
man avenue, by Circuit Judge
Mueller at Clayton today on her
cross-bill, charging general indis-
cretions, to the suit of Walter H.
Hoffman, vice president of the
Hoffman Bros. Produce Co.

Mrs. Hoffman obtained custody
of a daughter, Shirley Ann, 9, with
\$5000 gross alimony and payments
for support of the child fixed on a
scaling scale, \$40 a month for two
years, \$50 for three, and \$75 until
the girl is 18 years old; further
payments then to be considered by
the Court. They were married in
1921 and separated last month.

ST. LOUIS POST-DISPATCH

**TWO OF MAN'S THREE WIVES
LIVED OPPOSITE ONE ANOTHER**

Failure to Keep Them Well Dis-
tributed Causes Them to Be
Sent to Jail.

By the Associated Press.
GLENCOE, Minn., Sept. 9.—
Henry F. Rannow, 40 years old,
today faced a 10-year sentence for
bigamy and "desertion because he
could not keep his wives No. 1, 2
and 3 widely enough separated."

The last two lived across the
road from one another in Biscay,
Minn., while the first lived in
Sumter, 16 miles away.

Rannow made a confession in
which he said he married his first
wife 19 years ago. The second he
married under the name of John
Ahlbrecht, three years ago. The
third, he said, he married a year
ago under the name of William
Miller.

Rannow said he escaped detec-
tion because he represented him-
self as a salesman who was absent
from his homes most of the time.

His troubles began when the
second Mrs. Rannow charged him
with assault on their "husband,"
by former husband. While he
was in jail, the second wife re-
counted her troubles to her neigh-
bor, the third Mrs. Rannow, who
became suspicious, investigated,
and placed charges of bigamy and
desertion against their "husband."

It was then that he confessed to
having a third wife. Pleading
guilty, he was sentenced yesterday.

**MODIFIED DIVORCE DECREE
GRANTED CAPT. C. G. GROSS**

Document Issued at His Request in
Chicago Names Him as Par-
ent of Third Child.

CHICAGO, Sept. 9. — Superior
Judge Joseph B. Davis today signed
a modified decree divorcing Cap-
tain Christian Gross, attached to
the American legation in Cana-
da, from Mrs. Virginia Harrison
Gross, daughter of a former Gov-
ernor-General of the Philippines.

The decree, requested by Capt.
Gross, granted him custody of two
children, Peter, 8 years old, and
Barbara, 6, and named him as the
father of Mrs. Gross' third child,
Anna, 2, the cause of the suit. The
Court did not determine the cus-
tody of Anna, who is in France
with her mother, because of lack
of jurisdiction but it enjoined Mrs.
Gross from attempting to obtain
legal custody of Anna in the Illi-
nois courts until the child is within
their jurisdiction.

Gross obtained a divorce in Aug-
ust, 1930, and custody of the
children, for whom he established
a trust fund of \$350,000 in New
York. He recently asked the Court
to set aside the divorce, alleging
he learned in May, 1931, of the
birth of Anna which occurred in
May, 1928, four months after the
separation. He said he wished to
include Anna in the trust fund if
it was found he was her father, and
then to be divorced again.

**92,991 ENTER PUBLIC SCHOOLS
HERE, RECORD FOR FIRST DAY**

5000 More Pupils Expected to En-
roll This Week for
Year's Work.

The St. Louis public schools en-
rolled 92,991 pupils yesterday,
when the school year opened, set-
ting a record for the number en-
tering on the first day of the
term. In 1930 the enrollment on
opening day was 90,607.

During this week about 5000
more boys and girls are expected
to enter and by next June officials
think the enrollment will be well
in excess of the 116,839 figure at-
tained last June.

In the Negro grade schools the
largest increase in enrollment,
compared with opening day last
year, occurred. They entered 10,-
249 pupils yesterday, compared
with 8886 a year ago.

White pupils enrolled in the
East St. Louis public schools num-
bered 10,201.

**SMOKE COMMISSIONER SENDS
FINAL NOTICES TO 60 BUILDINGS**

Final notices were sent to 60
apartment houses and building
owners by Smoke Commissioner
Gordon today, warning that if
changes are not made in their heat-
ing plants the buildings will be
sealed. Gordon said the changes
ordered to reduce smoke must be
effected within "a reasonable time."

Notices were sent to a large
number of building owners last
spring, the Commissioner said, and
all but 60 have complied with the
directions.

ST. LOUIS POST-DISPATCH

**GAR WOOD, WEEPING,
CONTRADICTS STORY**

Misquoted, He Says—Declares
He Did Not Trick Speed-
boat Challenger.

By the Associated Press.
DETROIT, Mich., Sept. 9.—Gar
Wood, pilot of Miss America IX in
the Harmsworth trophy races, to-
day contradicted statements attrib-
uted to him Monday to the effect
that he had deliberately drawn
Kaye Don, British challenger in
Miss England II, over the starting
line, causing disqualification of
both boats.

Deeply affected by comment
which followed the second heat of
the race on Monday, in which Wood
and Don were disqualified for beat-
ing the starters' gun, Wood said
the only thing he had in mind was
to "beat Don over the line."

"We wanted to get over first,"
he said. "If had ridden in Don's
wash for 30 miles Sunday after-
noon, and I knew what it was like.
We felt if we got away first we'd
have a chance to keep the lead."

Wood said that he instructed his
mechanic, Arthur Johnson, who han-
dles the throttle, to "reach Don
and beat him over the line at any
cost." When they saw Don make
a start for the line, he said, they
speeded up the boat and passed
him before the starting line was
reached.

"It was this earnest desire on
Don's part to get the lead and our
determination that he would not
get the jump that caused this un-
fortunate mixup," Wood said.

Wood wept as he discussed the
statements attributed to him after
the race on Monday, to the effect
that he had tricked Don into beat-
ing him.

"I've been racing for years," he
said, "and we've done the best we
could to carry the American flag on
our boats in a sportsmanlike way. I
don't know how this misunder-
standing can be rectified. I've just
talked with London over the tele-
phone and they don't seem to in-
dicate what has happened here. It
doesn't seem that any amount of
explanation will get it straightened
out."

Reiterating his statement that
press reports had placed a wrong
impression on the matter, Wood
broke down as he terminated the
discussion, and said he "couldn't
talk about it any more."

**LETTER CARRIERS SUGGEST
U. S. ESTABLISH FOOT CLINIC**

Convention Also Expected to Ap-
prove Five-Day Week Despite
Brown's Opposition.

By the Associated Press.
OAKLAND, Cal., Sept. 9.—The
National Association of Letter Car-
riers, in convention here today, be-
fore it is a resolution favoring the
five-day week for postoffice em-
ployees.

Leaders expressed the opinion
the resolution would carry by a
large majority. They said the plan
was economically sound and in ac-
cord with the views of labor or-
ganizations, despite opposition ex-
pressed by Postmaster-General
Walter E. Brown.

Leaders said no loss in wages or
increase in postal rates would re-
sult and the five-day week would
open opportunities for many now
unemployed.

The convention has decided
against the employment by the
Government of married women un-
less the husbands are unable to
work. Business yesterday included
the unanimous adoption of a resolu-
tion pointing out that it would
be a big help if the Government
established foot clinics throughout
the country for the benefit of the
mailmen, who develop callouses,
corns, bunions and fallen arches.

ST. LOUIS POST-DISPATCH

**Wilkins' Submarine Being Repaired
In Spitzbergen; Likely to Leave
Tomorrow for Return Trip to U. S.**

**Worst Weather of Trip Experienced Near
End of Polar Cruise—Sir Hubert
Thrown From Bunk.**

By CAPT. SIR HUBERT WILKINS
(Copyright, 1931.)

ABOARD SUBMARINE NAUTILUS,
LONGYEAR CITY, Spitzber-
gen, Sept. 8.—Battered by the Arctic
blast, the Nautilus put in to the har-
bor at Longyear City this afternoon
just three weeks and a day after
its departure on the hazardous
cruise toward the North Pole.

It was 12:30 p. m. Greenwich
mean time (6:30 a. m. St. Louis
time) when the sharp nose of our
staunch little craft shoved into the
harbor to find comparatively calm
weather after yesterday's storm. All
our crew were well, but happy to
get ashore, especially to enjoy the
steak baths obtainable at the mine
here.

The scientists aboard the Nautilus
have been busy checking their
observations and packing the speci-
mens obtained from the depths and
bottom of the Arctic Ocean.

It will take us two days to pre-
pare the Nautilus for another sea
journey. We have not decided
whether we shall proceed in a di-
rect line for New York, via Ice-
land, or return via Bergen, Nor-
way, Sverdrup and Dored, the Nor-
wegian scientists, have decided to
go to Norway on a steamer leaving
for Hordstad immediately.

Caught in Severe Storm.
Thrashing through the worst
storm we have experienced since
leaving New York, the Nautilus,
bound toward Dancer Island, was
driven far south Sunday night. We
were unable to face the storm from
the northeast and put into Kross
Fjord, near King's Bay, Spitzbergen.

In order to continue our scientific
observations.

Even there it was too rough to
launch a boat and put a man
ashore for magnetic work, but as
we lay in the back of a high moun-
tain, Villinger was able to take
gravity measurements. As soon as
these were completed we headed
out of the fjord en route to Ad-
vent Bay.

The storm clouds over Spitzber-
gen's mountains afford a most spec-
tacular sight, but aboard the Nautilus
conditions were alarming. All
hatches had to be battened down.
The ship rolled to an almost im-
possible degree. Some of the crew
as well as the writer, were thrown
out of their bunks during the night.
Fortunately, no one was seriously
hurt, although today my ribs and
left arm are black and blue with
bruises.

Radio Mast Swept Away.
The waves and wind combined
swept away our slender radio mast.
The deck had been cleared of ev-
erything except the mast and the
left will have to execute the move-
ment by going around the outer lane
to the right. Those which cross
the stream of Skinker traffic in
the inner lane must stop at the
intersection of this lane. Signs
have been erected to direct traffic
and there are reflectors serving as
night warnings.

The circus has an extreme diam-
eter of 250 feet. The university
donated ground for it on the west
side and the southeast quadrant
was taken from Forest Park. Net
cost to the city for the northeast
quadrant, taken in condemnation,
was \$1374.55, there having been a
benefit assessment of \$122.05. The
circus was built for \$22,608.10, out
of bond issue funds, by C. A. Mo-
reno, contractor.

There are no trolley poles in the
portion of the circus, the
wires being supported by catenary
construction. Answering a criticism
of the plan made two months ago
by Harland Bartholomew, engineer
of the City Plan Commission, Di-
rector of Streets and Sewers, Brook-
s said today the commission had ap-
proved the plan on March 25. Bartholomew
objected to the retention
of street car tracks in the middle
of the circle as disfiguring. He fa-
vored curving the tracks with the
vehicular lanes. Brooks said the
latter scheme would have called for
additional ugly wires.

ST. LOUIS POST-DISPATCH

**TRAFFIC CIRCLE OPEN
AT SKINKER, LINDELL**

Construction Work Completed
Except for Graveling Car
Tracks and Sodding.

University Circle, the new traf-
fic circle at the intersection of
Skinker boulevard and Lindell
drive, was completely opened to
traffic today. Portions of it had
been in use for two weeks.

Construction is finished except
for graveling the car tracks in
the inner circle and sodding the
earth adjoining them.

Trolleys in Skinker go straight
through the center of the circle,
the tracks not having been shifted.
Safety zones will be marked for
trolley passengers next to the
tracks in the inner circle; they will
be reached by radial walks from
the exterior of the circle.

There are two curving lanes for
traffic, an external one for ve-
hicles turning from one thorough-
fare into another, and an internal
one for those going straight
through in Skinker. They are sepa-
rated by a broad curb. Grand
drive, Forest park and two one-
way drives of the Washington Uni-
versity campus enter the circle, as
well as Skinker and Lindell.

Traffic regulations announced
today follow: Traffic in the avenues
entering the circle must stop be-
fore crossing the outer line. Ve-
hicles turning into a drive on the
left will have to execute the move-
ment by going around the outer
lane to the right. Those which
cross the stream of Skinker traf-
fic in the inner lane must stop at
the intersection of this lane. Signs
have been erected to direct traffic
and there are reflectors serving as
night warnings.

G. O. P. WARD BOSS DEMANDS JOBS OF SCHOOL BOARD

City Committeeman William H. Hubele Writes to Ben Weidle and Draws Sharp Rebuke.

A letter from William H. Hubele, Republican City Committeeman for the Seventh Ward, demanding jobs for his constituents in return for political support of a Board of Education member, was read into the board's records last night. With it was read a sharp reply from the member, Ben

ST. LOUIS POST-DISPATCH

Weidle, chairman of the Instruction Committee, refusing to make the schools "a spoils of war department."

Hubele is Commissioner of Weights and Measures for the city, an appointive position. He resides at 1221 Morrison avenue. His letter, as presented to the board by Weidle, was dated Aug. 27. It said: "I am writing in behalf of Charles Hoffman, 1211A South Sixth street, whose application for a position as chauffeur has been pending with the Board of Education for several years. In connection with my request for this position for young Hoffman, I want to say that I have given you the support of my ward in your last election, and although I have been a committeeman for the past 13 years I have never secured a position from the Board of Education."

"Since the Seventh Ward also supported you financially, I believe you should see that I am given one or two positions, such as chauffeur, janitor or woman attendant. If you expect my future support, please see that my request is granted."

Weidle replied on Aug. 28, expressing surprise at Hubele's letter. He continued: "I do not know the boundaries of the Seventh Ward. I have no knowledge of any financial support given me by the Seventh Ward. I am not on the Board of Education for the purpose of getting jobs. I have never pledged a single position to any man or woman at any time."

"Furthermore, it was my desire to be left alone. I never sought a position on the board, although twice elected. It was against my wishes that friends voluntarily spent their time and money to bring my name before the public. Since I have been on the Board of Education it has cost me hundreds of dollars in actual cash, hundreds of days of time, and if you or any other committeeman or officer, from President of the United States down, imagine for one minute that Ben Weidle is going to try and run the public schools for the purpose of getting people jobs, to help their folks in positions of influence, you are badly mistaken."

"Kindly spread this word among your committeemen, both Demo-

cratic and Republican, that the schools are for the children, and not a spoils-of-war department. I am not on the school board as a Republican or Democrat; I am here to give the taxpayers a square deal. I could not deprive a loyal employee of his position, though I would be happy to assist anyone in obtaining employment."

Weidle's colleagues on the board made no comment during the session on the correspondence. Board members receive no salary and are chosen for six-year terms. Weidle was elected for his second term in 1928. He has been considered a Republican, but said last night he did not adhere to either the Republican or the Democratic party, having voted for candidates of both for President.

Osteopaths to Meet Here. The conventions of the Mississippi Valley and Missouri State Osteopathic conferences will be held at Hotel Statler Oct. 7 to 10, inclusive. Dr. Q. L. Drinnan of St. Louis is in charge of arrangements.

JUDGES GET STATE POLICE TO HELP CLOSE DOG TRACK

Continued From Page One.

authority to investigate all lawlessness in the county.

The original appointment directed Ellison, who will present his findings to the special grand jury, to close the dog track. When it was reaffirmed, after Judge Brown had quitted him, Judges Bernreuter and Miller indicated they were fighting not only the lawless element but "officials sworn to do their duty." His scope is widened now as to "enable him to ferret out evidences of conspiracy to shield the track and investigate its ramifications in the county. Judges Bernreuter and Miller said today.

Ellison, occupied today with the opening of the special grand jury and other developments at Edwardsville, said he has under consideration a suggestion by a St. Louis lawyer that he attempt to obtain an injunction preventing the electric light company from furnishing power to the track. The mechanical rabbit which speeds around the track ahead of the dogs is powered by electricity.

Prior to the impeachment of the special grand jury, Judges Bernreuter and Miller disclosed that its primary object is to investigate the method by which the dog track is upheld and the persons implicated in upholding it. They said the work of the grand jury might require several weeks and that they were going ahead independently with their efforts to close the track as soon as possible.

Emissaries Visited Judge.

Judge Bernreuter pointed out that aside from their province as Circuit Judges of the Third Judicial Circuit of Illinois, they are "conservators of peace under the statutes" and have authority to issue warrants for arrests at any time. They indicated they might use this power during the campaign against the dog track.

Judge Bernreuter, who said he seldom goes to his home at Nashville, preferring to "remain in the trenches" at Edwardsville, said that "emissaries of the dog track have approached me at various times all summer, begging me to let the track stay open for 60 days."

Judge Brown conducted a hearing today on a motion filed last week by Assistant State's Attorney Welch to set aside his restraining order. At the conclusion of the arguments, advanced by Welch and four attorneys representing the kennel club, he announced he "would take the matter under advisement." The judge directed a stenographer to prepare a transcript of the proceedings for his consideration.

Members of Grand Jury. Members of the special grand jury, besides Foreman Hilker, are: William Jackson, Godfrey, Frank Sawyer, Godfrey, Dr. George K. Worden, Alton; Louis Walter, Alton; John McCauley, Fosterburg; Phillip Paul, Fosterburg; Herbert Z. Guillo, Fosterburg; James R. Alcott, Madison; Frank H. Berry, Wood River; William O'Neill, Wood River; Al Harrin, Granite City; Harold Hunsong, Granite City; William F. Bachs, Granite City; Charles H. Henderson, Edwardsville; John A. P. Barnett, Edwardsville; Louis Koch, Highland; Edward C. Will, St. Jacob; Andrew West, Fort Russell; Charles Hoeft, Highland; John Elhausen, Fort Russell; Otto Stahlhut, Fort Russell; and John T. McGaughey, Bethalto.

Sheriff Fitzgerald, who was ordered yesterday by Judge Miller to produce Coroner Mercer in court today that he might be asked if he would serve a search warrant at the track for gambling paraphernalia and the electric rabbit, reported to the judge today that he could not find the Coroner. The judge thanked him and postponed action.

Fitzgerald refused yesterday to serve the warrant "on advice of my lawyer."

FOREST FIRE IN YELLOWSTONE

Blaze in 400-Acre Tract Is Out of Control.

By the Associated Press.

LIVINGSTON, Mont., Sept. 9.—A 400-acre forest fire in Yellowstone National Park was out of control today. The fire made a mile run in a dry, thickly timbered part of the Gallatip forest yesterday. It was burning on the north-west corner of the park, several miles from a road or building. Sixty men were sent to reinforce the six already there.

Supt. Roger Toll said the fire was the ninth started by lightning in the park since Saturday. The others caused little damage.

ANTI-CHURCH LAWS EXTENDED IN MEXICO

Only 9 Priests Allowed in Yucatan, 14 in Chiapas, 25 in Durango.

By the Associated Press.
MEXICO CITY, Sept. 9.—Ecclesiastical authorities are studying dispatches from Yucatan and Chiapas that tell of an extension of the movement to tighten restrictions against the Catholic church. The Yucatan Legislature yesterday approved a change in the church law to permit only nine priests to minister to the entire Catholic population of the state. Authorities in Chiapas are enforcing a law permitting only 14 priests there.

Only 12 priests are allowed to perform the duties of their offices in the state of Vera Cruz, only 25 in Durango, and there is said to be not a single priest on duty in Tlaxcala.

It is reported that troops intervened to restore order in the town of Otatitlan yesterday when a mob threatened municipal officials following mutilation of a statue. It was taken from a church and later was found decapitated in a blazing hut.

LIQUOR RUNNER WHO WENT TO PRISON FOR RESCUE DIES

Capt. Robert Pamphlet Entered U. S. Waters to Save Crew of Schooner.

By the Associated Press.
VANCOUVER, B. C., Sept. 9.—Capt. Robert Pamphlet, British Columbia seaman and hero of a rescue at sea in 1924 which led to his serving a prison term in the United States on a charge of violating Federal prohibition laws, died last night. He was born in Victoria, B. C., 58 years ago.

Capt. Pamphlet was in command of the vessel Pescawa, carrying a liquor cargo from Vancouver to Mexico, when he answered a call for help from the steam schooner Kaboo in a storm off the Oregon coast. He succeeded in saving the lives of seven men aboard the sinking schooner. In doing so he ventured inside American territorial waters. When he hailed a United States Coast Guard cutter to take off the Kaboo's crew, his ship was seized and he and his own men were taken to Astoria, Ore. Despite pleas that he had entered United States waters only to perform an act of humanity, he was sentenced to two years' imprisonment at McNeil Island. After serving about 20 months he was released. He had been living since in North Vancouver.

One of his proudest possessions was a gold watch presented him by members of the crew of the American vessel he had saved.

U. S. LOANS TO FARMERS AT 3 PCT. INTEREST URGED

Former Gov. Small of Illinois Indorses Proposal at Kankakee.

By the Associated Press.
KANKAKEE, Ill., Sept. 9.—A proposal for a Federal loan system at 3 per cent interest on farm lands was indorsed yesterday by Len Small, former Illinois Governor, at a meeting of farmers and other persons interested in agriculture yesterday. The meeting was sponsored by the Three Per Cent Money League of Illinois, organized recently in an attempt to obtain low interest-bearing notes for farmers from the Government.

"I would a hundred times rather our Government should loan money to our farmers, secured by their land, than to loan it to foreign countries without any security but their promises," Small said. "Such loans should be made at the same interest it costs the Government, if possible, not more than 2 per cent."

UNION ELECTRIC SETTLEMENT ON CAHOKIA TAXES REFUSED

St. Clair County Supervisors Say Reduced Valuation Doesn't Apply to 1929-30.

The St. Clair County Board of Supervisors yesterday refused an offer of the Union Electric Light and Power Co. to settle a disputed tax bill for 1929-30 on the company's Cahokia plant.

The Union Electric Co. withheld payment of \$210,000 tax on the plant on the ground that the \$10,000,000 valuation for tax purposes was too great. The County Board of Review recently reduced the valuation to \$5,500,000, and the company today offered to pay \$112,000 taxes on this valuation. The Board of Supervisors refused the offer on the ground that the recent valuation does not apply to the past.

72-YEAR-OLD CLAIM FOR \$840 Against Territory of Kansas for Corn Bought for Troops.

By the Associated Press.

LOS ANGELES, Cal., Sept. 9.—J. C. Cottle of Los Angeles has tendered the United States Government a 72-year-old claim for an \$840.60 debt.

Cottle, 78 years old, appeared at the United States District Attorney's office yesterday with a claim bill dated September, 1859, which he said was given to his father, Robert Cottle, in exchange for several hundred bushels of corn bought by the Territory of Kansas for territorial troops engaged in war with Geronimo bands. The father died without collecting the bill, and the son said he found it in his mother's Bible. Members of the District Attorney's staff assured Cottle the note still held good, and advised him to send it to the Kansas State Treasurer's office.

IOWA MOVE TO STOP SALE OF CORN, OATS

600 Farmer-Owner Elevators
Asked to Withhold
Grain from Market.

By the Associated Press.

DES MOINES, Ia., Sept. 9.—The Iowa Farmers' Grain Dealers' Association is proposing to its 600 farmer elevators that they make no sales of corn and oats until higher prices return. Fifteen cents for oats and 20 cents for corn, leaders of the association assert, is not enough.

W. J. Thompson, secretary of the association, outlined the aim of the movement yesterday when he said that both the old and new crops would be held "until prices reach a level where the farmer can at least pay the overhead and get through the coming winter."

Leaders of the movement said that grain dealers' associations in Nebraska, Illinois, Ohio, Indiana, Kansas, Minnesota, North Dakota and South Dakota would be asked to co-operate.

As an aid to farmers in withholding grain, revision of the Iowa Warehouse law has been suggested. A delegation of farmers will call on Gov. Dan Turner next Friday to urge him to attempt to set the price of corn at 60 cents a bushel until Jan. 1, when it would be fixed at 65 cents. Farmers would be urged not to sell below those prices. Sioux Rapids, Ia., business men and agriculturists have petitioned Gov. Turner to call a special session of the Legislature to enact laws to prevent the waste of a soil through excessive planting.

ST. CLAIR COUNTY TREASURER URGES HIGHER TAX RATE

Estimates Revenue at Less Than
Enough to Pay Deficit, Outlay
at Double the Income.

Although the St. Clair County Board of Supervisors recommended yesterday an appropriation of \$405,437 for general operating expenses for the next fiscal year, County Treasurer Edwin Schaefer pointed out that the estimated revenue from county taxes would be approximately half that amount.

The county tax rate of 25 cents on the \$100 of valuation was established in 1870, according to Schaefer, and is inadequate to meet present expenses. The last valuation for tax purposes, covering real estate and personal property, was \$137,000,000. For the fiscal period of 1930-31 taxes amounting to \$332,500 were assessed, and approximately \$30,000 was collected. County expenses totaled \$462,543, and the difference, plus other county indebtedness, leaves a deficit of \$292,525, Schaefer says. The Treasurer estimates that, due to business depression, 25 per cent of this year's taxes will be delinquent, making the collection total only \$222,000, or less than enough to pay the deficit.

The only remedy, Schaefer asserts, is a higher tax rate. The Supervisors also recommended an appropriation of \$441,050 for county road maintenance, and to pay interest on road bonds.

AGAINST JACKSON HOLE REGION AS NATIONAL PARK

U. S. Senator Carey, at Hearing,
Says He Favors Turning Area
Over to State.

By the Associated Press.

MORAN, Wyo., Sept. 9.—United States Senator Robert D. Carey yesterday reiterated his opposition to a proposal by the Rockefeller interests to make the Jackson Hole region of Wyoming a Federal recreational domain, and suggested that the area be turned over to the State.

Senator Carey's plan was outlined at a meeting attended by Senator F. C. Walcott of Connecticut, chairman of the Senate Wild Life Committee; Senator Key Pittman of Nevada, member of the committee; Kenneth Chorley and Vanderbilt Webb of New York, representatives of John D. Rockefeller Jr., and Richard Winger, spokesman for proponents of the Rockefeller plan.

Winger objected to State control and said the Federal agencies were better qualified to administer this area for the benefit of the people of Jackson Hole than the State.

Dr. Robert Hootger, State Game and Fish Commissioner, replied that he "blushed to think that there would not be men in Wyoming big enough and with ample ability to administer and supervise an area of this nature without importing them from outside the State."

ALLIGATORS NOT THE ZOO'S

It was published erroneously in Monday's Post-Dispatch that two alligators captured by police in Northwest St. Louis belong to the Municipal Zoo, and had been lent to an employee.

The alligators are the property of Richard Grossheller, a Zoo employee, who purchased them four years ago to study their habits. Grossheller keeps the 'gators at his home, 5415 Gilmore avenue, and they escaped from their pen Sunday night. The police report of the capture of the alligators stated that they were Zoo property.

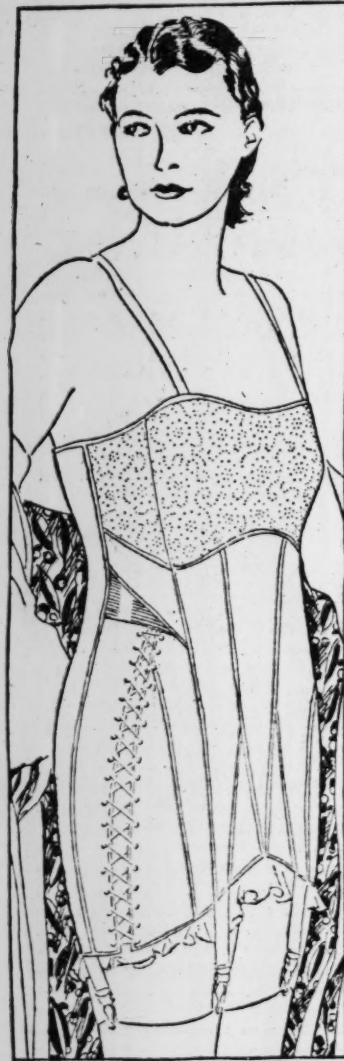

Says Alfonso Is Going to Argentina
By the Associated Press.

LONDON, Sept. 9.—Former King Alfonso of Spain is credited in the Daily Express with the intention of buying a large estate in Argentina and moving his family there from Fontainebleau. It was understood that physicians had advised the Prince of the Asturias, Alfonso's oldest son, that the climate of Santa Fe province might restore him to health.

SLAIN ON TRAIN BY MISTAKE

LAHORE, India, Sept. 8.—Donald Clark, 18-year-old English boy, was shot and killed today on the Bombay mail train. He entered a first-class compartment occupied by Lieut. Sheehan, a British officer, who himself had been shot and wounded on the train several months ago. Awakening suddenly, Sheehan fired before he recognized the visitor, police said.

IT IS
 A REAL
ECONOMY
 TO
 PURCHASE
CHARIS

TRUE economy is seldom just a matter of price. A foundation garment which fails to correct your figure properly, which fits poorly, or which soon stretches out of shape is an extravagance at any price.

The economy of CHARIS is due to its superiority. It quickly corrects your figure wherever correction is desirable because it is adjustable to your individual needs. It retains its shape through long use by employing a minimum amount of elastic, and that just to permit freedom of movement. The dainty, exquisite materials successfully withstand repeated launderings.

An unusual, additional service is the individual fitting you receive by figure specialists in our attractive fitting rooms, without extra charge.

With its many exclusive features, you would expect CHARIS to be expensive. The reasonable prices are a pleasant surprise. Prove for yourself the real economy of a genuine CHARIS. Without obligating yourself in any way, phone the address below for a representative to give you a private showing in your home.

You may purchase a Charis from \$6.95 up. The garment illustrated is priced at \$9.50.

Tune in next week—Dorothy Chase and the Charis Morning Musicale. WKW, Wednesday, 10:30 A. M.

PETER O'BRIEN, SEDALIA HEADS STATE LEGION

Elected Unanimously at Joplin
 —Wet Resolution Declared Out of Order.

By the Associated Press.

JOPLIN, Mo., Sept. 8.—Peter O'Brien, who served overseas with the Eighty-third Division and who is a veteran employee of the post-office in Sedalia, unanimously was chosen Commander of the American Legion here yesterday. Robert J. Callahan, St. Louis, retiring judge advocate, withdrew his candidacy while the votes of the first ballot were being collected. Joseph J. Shy, Chillicothe, then withdrew before the results of the second ballot could be made known and the votes were never counted.

An effort to have the Legion go on record in favor of repeal of national prohibition failed when Harry C. Blanton, Sikeston, retiring commander, declared such a motion out of order because prohibition was "a political issue and not within the scope of the Legion." The delegates defeated attempts to appeal the decision. Robert Thompson, St. Louis, introduced the repeal resolution as a minority report.

Committee Report Overridden.
 The delegates overrode the Resolutions Committee and voted that the Federal Treasury Department be prohibited from assessing interest charges on money borrowed by veterans on their adjusted service certificates. Jerry B. Fenton, Springfield, carried the resolution to the floor after the Resolutions Committee declined to act.

The Legion adopted an amendment to its Constitution providing for the election of a Negro as a sixth vice commander. James Jeffers, Kansas City, was chosen. The other five vice commanders elected were: Frank N. Heller, St. Louis; Ernest R. Proctor, California; L. H. Brestley, Buffalo; Charles O'Neill, St. Charles; and Lester J. Fordice, Powersville. Heller is chief reading clerk in the Circuit Attorney's office in St. Louis.

Other officers elected: A. C. Bass, Warrensburg, finance officer; George Fiske, Kansas City, department historian; J. Grant Frye, Cape Girardeau, judge advocate; Father Mullaly, St. Louis, chaplain; J. R. Fowler, Plattsburg, secretary; and Commander-elect O'Brien reappointed Jerry Duggan, Kansas City, as adjutant.

National Convention Delegates.
 As delegates-at-large to the national convention, the delegates selected O'Brien and Blanton and eight past commanders—E. M. Statton, Kansas City; R. Carter Tucker, Kansas City; Dan Nee, Springfield; P. M. Casteel, St. Joseph; T. J. Strickler, Kansas City; Harry P. Barker, Warrensburg; James E. Kincaid, Webster Groves; and Harry W. Castlen, University City—and State Senator Cliff Titus and Perry K. Hurlbut, commander of the Robert S. Thurman Post of Joplin.

Mrs. J. F. Duffendack, Kansas City, retiring first vice president, was elected president of the State American Legion Auxiliary, defeating Mrs. Emmett J. Kilg, Butler, in a close vote.

Other auxiliary officers elected were: Mrs. Clark Hudson, St. Louis, first vice president; Mrs. C. L. Malone, Sikeston, second vice president; Mrs. Wayne S. O'Neal, St. Louis, treasurer; Mrs. St. Jeanne Robinson, St. Joseph, historian.

Plans were launched by the auxiliary to create a scholarship fund to help defray the expenses of college educations for children of World War veterans.

Honorary were chosen as the next convention city.

CARDINAL VICTORY PARADE IS PLANNED FOR SEPT. 29

\$1500 Sought From 3000 Persons to Pay Expense of Demonstration.

A parade to celebrate the victory of the Cardinals in the National League pennant race—if they win it—will be held Sept. 29.

A committee headed by City Register Jack Grosse sent out letters to 3000 persons yesterday asking for contributions to pay for the celebration. The committee hopes to collect \$1500. The parade will leave Sportsman's Park at 11 a. m., and arrive downtown at noon. The Board of Education has been asked to give school children an extra hour for lunch so they may see the parade. If there is rain at that time, the celebration will be held later in the afternoon.

A request that the ball players appear in the parade in uniform instead of in street clothing is being considered.

TO HURT WHEN STREET CAR OVERTURNS AND CATCHES FIRE

Passengers on Route to Women's Plepic at Windsor Acetylene Torches Used in Rescue.

By the Associated Press.

WINDSOR, Ont., Sept. 9.—More than 70 persons were injured last night when a trolley car went off the tracks, struck a telegraph pole, overturned and caught fire. Most of the passengers were trapped in the steel coach and police and firemen used acetylene torches to free them.

The trolley was en route to Devonshire Park, where the Windsor fire department was holding its annual field day. The firemen abandoned their picnic and hurried to the scene. Many motorists turned headlights on the car to aid in rescue work.

Three women caught in the twisted steel wreckage were seriously injured. They were freed with the torches.

ALL MILK SENT HERE INSPECTED, CITY SAYS

Starkloff Replies to Producers Who Cited Shipments From Distant Points.

Milk arriving at Pevely Dairy Co. is subjected to "the most rigid inspection," Health Commissioner Starkloff said today in reply to a complaint of the striking Sanitary Milk Producers that condensers were shipping milk to St. Louis from farms not subject to city inspection.

"Hundreds of inquiries have come to our office," Secretary Manager Lynch of the association wrote to Dr. Starkloff, "asking if milk coming from faraway places is being produced according to the St. Louis health ordinance. We refer especially to that section requiring milk houses and proper equipment for the handling and care of milk on the farm."

Lynch quoted a Health Department order of last February, "No milk or milk products which are produced under conditions which do not meet these requirements will be permitted to be sold or offered for sale in the City of St. Louis on and after May 1, 1931."

"The enclosed telegrams will give you definite information as to the source of importations of milk from outside your territory," he concluded. "What are you as Health Commissioner of the City of St. Louis doing about these importations of milk?"

Enclosed was a request for information from a Springfield (Mo.) creamery, asking, "will it interfere with your demands if we continue to furnish milk to St. Louis distributors?" a wire reporting that Wisconsin was making a state investigation of shipments, not under city inspection, from a Belleville (Wis.) condenser, and a telegram from J. D. Beck, Wisconsin Commissioner of Agriculture, "We will lend every help possible in milk strike. Can you keep us informed as to any points in Wisconsin from which milk is being shipped into St. Louis and who shipper might be?"

"We have enforced satisfactory health requirements and we shall continue to maintain strict control to the best of our judgment and without asking the advice of the producers or anybody else," said Dr. Starkloff, who had not received the letter when he talked with a Post-Dispatch reporter.

"Every bit of milk that comes into St. Louis is subject to the most rigid inspection. It has to stand tuberculosis inspection, and to conform absolutely with butter fat standards and the standard bacteria count. For that matter, an organization like the Pevely dairy wouldn't handle a product that didn't meet those standards."

"The final answer to any complaint of the quality of St. Louis milk is the infant death rate, the lowest of any large city in the United States."

SEEKS \$100,000 FOR BREAKING UP WEALTHY YOUTH'S AFFAIR

Boston Woman Files Suit Against Mother of A. & P. Stores Heir.

By the Associated Press. BOSTON, Sept. 8.—Miss Mildred King of Boston yesterday sued Mrs. Henrietta G. Hartford, wealthy Newport (R. I.) widow, for \$100,000, alleging Mrs. Hartford failed to live up to agreements made regarding the widow's son and his affairs.

The suit says young Hartford was infatuated with a New York woman when Mrs. Hartford brought him to Boston and sent him to college to keep him from her. Mrs. Hartford told the story of his infatuation to Miss King and asked her assistance, the suit adds. Miss King was to receive pay or be legally adopted if she succeeded in causing a break between young Hartford and the New York woman, the suit, filed in Federal Court, charged.

Miss King said she introduced Hartford to several young women of high character and that, eventually, he stopped seeing the other woman. Mrs. Hartford then declined, she said, to pay her for her services or to adopt her.

Mrs. Hartford is the widow of Edward V. Hartford and of the family which controls the Great Atlantic & Pacific Tea Co.

FIREMAN FOUND DEAD AFTER FALL FROM SPEEDING TRAIN

C. & E. L. Employee Killed in Drop or Was Stricken With Heart Disease.

By the Associated Press. DANVILLE, Ill., Sept. 8.—The body of William H. Rogers, 42 years old, Villa Grove, Ill., a Chicago & Eastern Illinois fireman, was found in the north part of Watseka along the main line right of way last night. His engineer, Harry Reese, Villa Grove, missed him as the train neared Martinon, and backed the train up to search for him.

It was not determined whether death was caused by the fall from the locomotive or whether he was stricken with heart disease and tumbled from the gangway.

Rogers was firing the second engine of a fast St. Louis-Chicago train.

MAN, 85, FOUND FATALLY HURT
Son, 50, Discovered With Throat Slashed in Ontario Home.
ALLISON, Ont., Sept. 8. — The body of William Campbell, 85 years old, wealthy retired farmer, was found yesterday in a locked bedroom in his home. His head had been battered.
Shortly afterward, his son, Wesley Campbell, 50, was found unconscious, his throat slashed and a razor in his hand. Physicians said the father had been dead several days but that the son's throat had been slashed yesterday.

5 JOBS ABOLISHED IN SCHOOL BOARD ROW ON SHAKEUP

Action Is Rebuke to Building Commissioner Friton Who Made Changes in Personnel.

Five positions in the Building Department of the Board of Education were abolished last night in a movement by a majority of the board to rebuke Building Commissioner Friton and his supporters. Some of the board members have been aggrieved because of changes made in the personnel of the Building Department without consulting them. The commissioner, under the law, may make such changes without reference to the board, but the board displayed a whip hand last night by abolishing the jobs.

The places wiped out were chief engineer, superintendent and assistant superintendent of shops and repairs, and superintendent and assistant superintendent of custodians. Ralf Toensfeldt, former chief electrical engineer for the city, was to have become chief engineer next Tuesday at \$5000 a year, succeeding Thomas J. Ferris, who was paid \$5600 and who was dismissed by Friton.

Some Recent Shakeups.
Harry G. Clymer, a member of the City Board of (Zoning) Adjustment, who was made assistant superintendent of shops last March at \$3000 a year, became superintendent on Sept. 1 with no change of salary, and Robert Lloyd, who had been superintendent at \$5000, was demoted to assistant at \$3000. Last February, Friton dismissed Philip C. Brante as superintendent of custodians at \$5000 a year and gave George Maschmeyer this place at \$3000. A little later, Louis H. Schwetwey was demoted from assistant superintendent of custodians to head custodian at Beaumont High School.

Friton told the board the changes were made in the interest of efficiency and economy. By its action last night the board eliminated salaries amounting to \$14,000 a year for four places. Schwetwey's job having been left vacant by Friton. Today, Friton said duties of other employees would have to be rearranged to take care of the work formerly done by the four executives. He made no comment on the board's action.

Friton was appointed commissioner by the board Sept. 1, 1930, at \$7500 a year for a four-year term. The resolution to do away with the positions was introduced by Arthur A. Blumeyer in executive session and was said to have come as a surprise to his colleagues, although the members had been discussing Friton's policies for some time. Members have said that all classes of employees of the Building Department were fearful of losing their jobs, not knowing what further changes Friton might make. Blumeyer's resolution based on the abolition of the five places on the need for retrenchment in view of the heavy demands on the school revenues, but the board understood the real reason to be directed at Friton and his supporters. The abolition was made effective Sept. 15.

The vote for the resolution was 8 to 1, only Dr. David C. Todd opposing it. Arthur S. Werremeyer, Mrs. Elias Michael and Mrs. Ernest R. Kroeger were out of town. It was learned some board members felt that Dr. Todd and Werremeyer, who were instrumental in having Friton made Commissioner, were dictating Friton's policies. The resolution was planned to show Friton the board could assert itself. One member said its adoption served notice on Friton that he could be removed from office, which would take at least eight votes.

There has been a movement in the board to obtain a new position for Brante in the school system. A resolution was adopted last July stating that his dismissal did not reflect on his character. An effort may be made to get a new place for Lloyd, as it was said his present job was abolished only to prevent the possibility of Clymer being put in it. Maschmeyer, members think, may be given work as a custodian. Toensfeldt is a consulting engineer and Clymer an architect.

Harris College Changes.
A shakeup in the faculty of Harris Teachers' College, recommended by Superintendent of Instruction Gerling, was approved by the board. Two professors were transferred to high school class rooms at reduced salaries and another was demoted. Gerling said the changes were made because these men had failed to co-operate with President Purdon of the college.
Mendel E. Branom, professor of history and geography, was sent to Roosevelt High, and Roy Ivan Johnson, professor of history and English, to Central High. Each will rank as head assistant in high school, with the maximum salary of \$4000 a year, a reduction of \$1000 in their incomes. They will lose the titles of professor. John D. Whitney was demoted from professor of physics and chemistry at \$3600 a year to associate professor at \$3200. To fill the vacancies left by Branom and Johnson, A. O. Kelley, who has been teaching at Soldan High, and B. B. Gould, who has been at Central High, were made professors of the college at \$4500 a year each.
The board approved Gerling's recommendation for discontinuation of the Franklin Intermediate School because of small attendance, and the transfer of its principal,

PERRY DROPS A SET TO SUTTER, THEN CAPTURES THREE IN ROW

By the Associated Press. FOREST HILLS, N. Y., Sept. 9.—Johnny Van Ryn of Philadelphia, American Davis cup doubles star, went into the quarter-finals of the national singles tennis tournament today with a straight set victory over Christian Boususs of France, second seeded foreigner. The scores were 7-5, 6-0, 6-4.

Both contented themselves with baseline driving games in the initial set. Van Ryn's stroking proved the steadier of the two, finally breaking Boususs' service on the eleventh game to win the set.

The second set saw the American storm the net continually and overwhelm the left-handed Frenchman with a succession of brilliant volleys. Boususs was able to earn only nine points in the entire set, so thoroughly was he outclassed.

Boususs, turning the tables, launched a net attack to match Van Ryn's in the third set, holding his own service until the count was four-all in games. There he grew wild with his delivery and the steady Philadelphia quickly ran out the match.

Boususs' defeat cleared out the last of the French contenders for the title and left only one invader in the running. That was Frederick J. Perry, British Davis cup star. Unless Perry comes through, and he is in the same bracket with Ellsworth Vines, the trophy will not go overseas.

Champion Doeg Advances. Johnny Doeg, defending champion, crashed into the quarter final by defeating Bryan Grant Jr., little Atlanta gamster, 6-0, 4-6, 6-2, 6-1. Grant, who created an upset by beating Jacques Brugnon of France two days ago, wilted after putting everything he had into winning the second set.

Doeg gained his fourth triumph of the tournament largely by virtue of his greater height and stamina. He rushed the net to sweep through the opening set with ease, then sat back in the second and let Grant wear himself down racing from corner to corner after Johnny's accurate chop shots. The Atlanta finally won the set, but it left him in poor shape to continue.

Again taking to the net in the third set, the giant Newark star dominated the play, forcing Grant into repeated errors, and easily ran out the match with the loss of only three games.

Frederick J. Perry, British ace, sailed into the quarter final by defeating Clifford Butcher of New Orleans, 4-6, 6-4, 6-2, 6-3. Playing raggedly at the start Perry dropped the opening set before he found his real game and put Sutter on the defensive.

Robert Bryan of Chattanooga, Tenn., put up a brisk struggle before succumbing to Berkeley Bell of Dallas, Tex., 7-5, 4-6, 7-3. Bryan yesterday eliminated George P. Hughes, British star, but he didn't quite have the class to cope with the experienced Texan today.

THREE CALIFORNIA GIRLS IN SEMI-FINAL OF TENNIS TOURNAY

By the Associated Press. PHILADELPHIA, Sept. 9.—California today gained three chances to one to retake the national girls' tennis title, which it had for the last time in 1927. In the tournament being played at the Philadelphia Cricket Club.

Alice Marble, national hard court junior champion from San Francisco; Greely Wheeler, Pacific Coast junior title holder, from Santa Monica; and Ruby Bishop of Pasadena, were the California girls who reached the semifinal round. The other to reach the semifinal was Hilda Boehm of Boston.

Miss Marble, who tops the seeded list, put out Elizabeth Kesting, St. Paul, Minn., 6-3, 6-7, 6-2. Miss Wheeler, seeded second, defeated Bonnie Miller, San Francisco, 1-6, 6-3, 3-6. The third favorite, Miss Bishop, won 6-4, 6-1, over Kay Winthrop, indoor national girls' champion from Boston. Hilda Boehm put out Carolyn Roberts of New York, 6-2, 6-3.

BOY EXPOSES EXTORTIONIST HE ASSISTED FOR 50 CENTS

Child's Story Leads to Arrest and Confession After Business Leader Is Threatened.

By the Associated Press.

TERRE HAUTE, Ind., Sept. 9.—A small boy who unwittingly carried out part of an extortion plot against Benjamin Blumburg, Terre Haute business man, for an offer of 50 cents, gave police a description that resulted in the arrest and confession last night of David R. McCracken, 24 years old, former Terre Haute railroad worker.

Blumburg, president of the Terre

Haute Chamber of Commerce, solicited the aid of police after he received the third letter in a few weeks threatening harm to members of his family unless he left a large amount of money at a designated spot. On two previous occasions the extortionist failed to appear.

In a letter received yesterday, Blumburg was instructed to drive his automobile to a certain corner last night, sound the horn and toss a package of money to a person who would wave a white handkerchief. Detectives surrounded the corner and grabbed the youngster, who described his employer.

FLYER BADLY BURNED WHEN PLANE'S MOTOR BACKFIRES

Pilot Helping Start Craft of Racing Aviator at the Time.

By the Associated Press.

LOUISVILLE, Ky., Sept. 9.—A pilot was burned seriously and his plane badly damaged when the motor backfired as he attempted to start it.

P. M. Althouse, 26 years old, Curtis-Wright pilot, was in the cockpit helping mechanics start the motor and the backfire trapped him.

Miss Barnes, whose home is at San Moreno, Cal., is known as "Pachito" Barnes in aviation circles. She landed here yesterday from Cleveland and planned to take off for New Orleans this morning, where she was entered in a race to the West Coast. Damage to her plane was estimated at \$2000.

ONE MAN FIGHTS OFF TWO IN STORE HOLDUP

Waichman Off Duty Is Beaten on Head by Cigar Shop Robbers.

A holdup at the cigar store of Al Pierce, 710 North Eighth street, late yesterday afternoon, was frustrated by John Ryan, a private watchman of 3038 Sheridan avenue, who was in the store off duty. In struggling with the two robbers, Ryan was beaten on the head with a revolver but escaped serious injury.

Pierce had closed the store and was checking the day's receipts when the two men knocked on the front door to be admitted. When Pierce let them in, one drew a revolver and demanded his money. Ryan was at an icebox reaching for a bottle of soda water and was apparently unnoticed by the two men.

Ryan stole up to the second man and struck him in the jaw. As they struggled, the other robber joined in the fight, attempting to fire his revolver at Ryan but failing and both men then beat Ryan on the head.

Almost immediately and without time for Pierce to interfere, the two robbers freed themselves and ran out of the store, taking nothing. Ryan was treated for his injuries and returned home. He is 25 years old and is a son of the late Martin Ryan, a veteran watchman on Washington avenue who accidentally shot himself several years ago.

MISSOURI COUNTY JUDGES MEETING AT JEFFERSON CITY

Banquet to Be Held Tonight and Election of Officers Tomorrow.

By the Associated Press.

JEFFERSON CITY, Sept. 9.—The eleventh annual convention of the County Judges' Association of Missouri opened in the House of Representatives chamber today with about 150 members here from 50 counties for a two-day meeting.

Following a short welcoming address by Mayor H. C. Asel of Jefferson City the judges heard Judge N. W. Bricker, presiding Judge of the Jefferson County Court and Judge Henry Riedel, president of the association.

T. H. Cutler, chief engineer of the State Highway Department, speaking on "Road Building in Missouri" and Carl W. Brown, assistant chief engineer discussing "Supplementary or Farm to Market Roads" led the morning discussions.

The afternoon program included short talks by Judge W. J. Bradford of the Cass County Court; Judge Ernest Oppenlander, Holt County court; Judge O. L. Brown, Daviess County court and T. O. Sheets, Dent County court. The annual banquet will be held tonight.

Tomorrow morning the judges will be addressed by Gov. Caulfield, William Bradshaw, professor of political science, University of Missouri, and J. T. Waddill, chairman of University College, Room 151, Brookings Hall.

Killed in Fall on Stairs.

PANA, Ill., Sept. 9.—Joseph Smith, 82 years old, Tower Hill, east of Pana, several times Supervisor of Shelby County, while visiting his daughter at Decatur, fell down the stairway of her home last night and fractured her skull, dying shortly afterward.

GANG VICTIM THIRD IN FAMILY SLAIN IN ABOUT TWO YEARS

Youth Found Shot in Greenwich Village Identified: Brother and Father Similarly Killed.

By the Associated Press.

NEW YORK, Sept. 9.—The youth shot to death by gangsters Monday was identified yesterday as Thomas Cigna, 18 years old. He was the third member of his family slain by gangsters in a little more than two years.

Three weeks ago Thomas Cigna identified the body of his brother, Joseph. Thomas was found slain in a hallway in Greenwich Village, presumably after a pistol fight. Cigna's father, Paul, was shot to death in May, 1929.

False Teeth

Don't allow your false teeth to drop or slip when you eat, talk or laugh. This new improved powder forms a comfort cushion—holds plates so snug, they feel and act like your own teeth. No more danger of rocking plates—eating will again be a joy. Leading dentists endorse Kiling. Guaranteed better than anything you ever used or money back. Large package, 35c at all druggists.

STUDY LAW

Evening Classes

A legal training will do more toward the development of your maximum mental powers than any other training or education. A legal training causes you to think and reason, analyze and apply. It gives you the ability to get quickly at essentials, to separate the wheat from the chaff. Whether you expect to practice law or not, a legal training will develop within you a power unobtainable through any other source. It is the power that makes for success in every walk of life.

The completion of a four-year course of training in law at the City College of Law and Finance brings to you the Bachelor of Law Degree (LL.B.). The Master of Law Degree (LL.M.) may be had by taking a Post Graduate course of one year. Through the medium of evening classes this training may be had by you without conflicting with your daily work or business.

The tuition may be paid in small installments. Additional information and catalog upon request. Come in, let us discuss this course of study and the possibilities that it may hold for you. Remember, a little informal discussion with no obligation.

LETTERS FROM WOMEN TRACED TO FIX IDENTITY OF SLAYER

Communication to West Virginia Police Tells of Inquiry About Money.

By the Associated Press.

CLARKSBURG, W. Va., Sept. 9.—Letters from women all over the country are being traced by Clarksburg police in the hope that they will throw light on the identity of Harry F. Powers, 42-year-old matrimonial agent, who has confessed slaying two women and three children.

More than 20 letters were received yesterday by Chief of Police Clarence Duckworth. One letter, signed "a young widow," from Erie, Pa., told of a call made on her by a man who gave his name as George Payne. He told her, she wrote, that Cornelius O. Pierson, Lock Box 277, Clarksburg, W. Va., could get her a good job. He also advised her to write to Box 100, Detroit.

Later, she wrote, she received two letters from Pierson in which he inquired about her funds and her family. She ceased corresponding. Powers used the alias, Cornelius O. Pierson.

Powers recently confessed slaying Mrs. Asta Bulck Eicher and her three children and Mrs. Dorothy P. Lemke. Their bodies were found in a ditch six miles from here.

EDITORIAL

ST. LOUIS POST-DISPATCH SECTION Markets

ST. LOUIS, WEDNESDAY, SEPTEMBER 9, 1931.

PAGES 1-10D

**ADVOCATES EQUAL
DIVISION OF WORK
TO GIVE ALL JOBS**

**Congressman David J. Lewis of Maryland De-
plores Discrimination in
Industrial Lay-Offs.**

**6-DAY WORK WEEK
DOOMED, HE SAYS**

**He Thinks Present Period
Is Development of Chang-
ing World Rather Than
Just a Depression.**

Special to the Post-Dispatch.
FREDERICK, Md., Sept. 9.—
Legislation requiring the available
work of the nation to be divided
equally among those willing and
able to perform it was advocated
as a remedy for unemployment in
a speech here yesterday by Repre-
sentative David J. Lewis (Dem.),
Maryland. Representative Lewis,
author of the parcel post service
and former member of the Feder-
al Tariff Commission, has just re-
turned from an extended tour of
Europe, where he went for the ex-
press purpose of studying unem-
ployment and the measures devised
to relieve it.

"Conditions in England and Ger-
many are much like they are here,"
he said, "except that they have
been taken out of it for the work-
ing people by their systems of un-
employment insurance. The Prime
Minister does the worrying. And
why shouldn't they? When men
who are able and willing to work
cannot find employment, let the
Government either find new jobs
for them or compensate them for
the jobs that national policies have
taken away."

For the United States, however,
Representative Lewis recom-
mended his plan of compulsory stag-
gered employment and divided
profits in preference to compul-
sory unemployment insurance. He
said that employees who refused to
accept it should be taxed to pro-
vide for workers made idle by their
refusal.

The Right to Work.

"The world does not owe a man
a living," he said, "but it certainly
owes him a chance to earn a liv-
ing. It has been our national pol-
icy to promote inventions and in-
dustrial saving devices, on the ground
that they benefit the society. When
these mechanical improvements
throw millions out of work, it is the
duty of society either to find new
jobs for them or compensate them
for the ones they lost."

"The principle of equality before
the law should extend to the right
to work, and I believe that every
worker has a claim to an equal
share of the current employment.
A depression occurs, reducing the
available employment by one-third.
Employees, instead of giving six
men four days a week, give six
days work to four men, and lay
off the other two. Above all, they
seek to maintain the old rate of
profits."

"I do not believe that the man-
agement has any moral right thus
to discriminate against one-third
of its employees, and it should be
legally prohibited from doing so.
When the net income of a company
falls off one-third, no management
has the right of depriving one-third
of the stockholders of their dividends
in order to pay full dividends to
the other two-thirds. Any man-
agement which attempted such a
thing would be restrained by law."

Distributing Loss Equally.
The workers in an industry
have the same moral rights as the
owners. When conditions occur
that produce a shrinkage of em-
ployment and a shrinkage of prof-
its, that less should be borne
equally by workers, owners and
managers. It is against the social
conscience to maintain profits for
some and loss for others at the ex-
pense of the remainder."

"We should be able to rely on
the natural instincts of men to pre-
vent such discrimination. Unfor-
tunately, experience has demon-
strated that we cannot. Nor is the
employer always to blame. I know
a recent instance in which an
industry was faced with the neces-
sity of curtailing employment. The
workers took a secret ballot, in
consequence of which they deman-
ded that the management dismiss a
percentage of its newer employees,
head of reducing the working
time of all. It was a vicious use
of the seniority rule, and the work-
men who did it started a new form
of 'blacklist'—one against their own
fellow workers. The management had
to display character by re-
sisting the demand, but it failed."

"Such discrimination on the part
of selfish workers and unprin-
ciple employers proves that moral
restraints are not sufficient to en-
force the rule of equal partition of
work. Legal compulsion is neces-
sary."

Shorter Working Week.
"Moreover, I am inclined to be-
lieve that the end of the six-day
working week has come to stay.
Unemployment will increase until

**Increase Shown in Percentage
Of Women Employed in U. S.**

**Census Places Domestic Servant Group as
Most Numerous Among Female Workers;
Manufacturing Leads Among Men.**

By the Associated Press.
WASHINGTON, Sept. 9.—A ma-
terial decrease in the proportion of
men gainfully employed, and a de-
cided increase in the percentage of
women so occupied, is reported by
the Census Bureau for 1930. The
comparisons are with the reports
for 1920.

There were 48,832,589 gainful
workers in the United States last
year—38,053,795 boys and men;
10,778,794 women and girls.

These male gainful workers rep-
resented but 78.2 per cent of the
male population 10 years of age
and over, as against 78.2 per cent
in 1920; 81.3 per cent in 1910, and
80 per cent in 1900.

More Women at Work.

As the male percentage declined,
more women got into jobs, 18.8
per cent of women and girls over 10
years being at work in 1930,
23.4 per cent in 1920, 21.1 per cent
in 1910, 22.1 per cent in 1900.

Domestic service still had the
greatest number of women wage
earners, 2,149,341, despite manu-
facturing second in importance, and
professional service, principally
teaching, third.

Manufacturing and allied indus-
tries had the greatest number of
men, with agriculture second and
trade third.

Agriculture, the only pursuit of-
fering a close comparison with
1920, had 9,568,247 male workers,

as compared with 9,578,289 10 years
ago—a loss.

Women in Professional Service.
A change in computation method
made decade-to-decade compar-
isons in other industries difficult.

Manufacturing had 31.3 per cent of
male workers and 22.4 per cent of
women workers.

Agriculture had but 25.1 per cent of
male workers; 8.5 per cent of
women.

Women in professional service
outnumbered men—1,762,795 to
1,653,043. Professional men formed
but 4.4 per cent of the male work-
ing group; professional women,
16.4 per cent of feminine wage
earners.

Nevada led in percentage of
males over 10 years of age gain-
fully employed with 81.2.

District of Columbia led in per-
centage of women and girls over 10
years being at work in 1930,
33.4 per cent in 1920, 21.1 per cent
in 1910, 22.1 per cent in 1900.

Domestic service still had the

**GERMANY REPORTS
ARMAMENTS WELL
WITHIN THE LIMITS**

**Statement to League Shows
Four Ships of Line, Half
as Many as Allowed Under
Versailles Treaty.**

**NOT ABLE TO BUILD
UP TO THE MAXIMUM**

**Lacks Armed Land Forces
Overseas, War Planes at
Home and Abroad, and
Submarines.**

By the Associated Press.

GENEVA, Sept. 9.—Germany's
statement showing an army of
100,500 men and 4500 officers and
a navy personnel of 15,000 men
and 1500 officers was published
today by the League of Nations
secretariat.

Foreign Minister Julius Curtius,
in a foreword, said that Germany
had not yet been able to build the
fleet up to the limit laid down in
the Versailles treaty and that the
report disclosed "how meager Ger-
many's armament is compared with
other states of corresponding ter-
ritory and population."

"The navy possesses, for exam-
ple, only four commissioned ships
of the line," he said, "whereas ac-
cording to Article 181 of the Ver-
sailles treaty, and the regulations
of the International Marine Control
Commission, six ships of the line
should be in service and two ships
of the line in reserve—in other
words, twice as many."

There were many blank spaces in
the German statement under cap-
tions prescribed by the League
Council. These showed the lack of
armed land forces overseas, of
armed air forces stationed in Ger-
many and abroad, and of subma-
rines.

On the other hand, Germany has
four ships of the line more than 20
years old and two "vest pocket"
battleships under construction as
well as the recently launched
Deutschland. No aircraft carriers
were shown, but five light cruisers
and one under construction were
reported. Germany has 26 de-
stroyers and torpedo boats and 113
auxiliaries, such as tug and mine
sweepers. The total naval tonnage
is 125,730.

Canada for French Formula.
Canada's support for the princi-
ple of "arbitration, security and
disarmament" was expressed in a
statement by the Canadian dele-
gate, who was announced to the
assembly of the league today by Hugh Guthrie,
Canadian delegate, who is mak-
ing his first appearance at Geneva.

This support, he said, would be
in the nature of sympathetic co-
operation in whatever plan may final-
ly be agreed on.

"Canada has no need for greater
armaments," he said. "She has but
one international boundary. The
United States of America, a great
friendly country, is our only im-
mediate neighbor and we are con-
vinced that the peaceful aims and
aspirations of that great country
will rival and support our own."

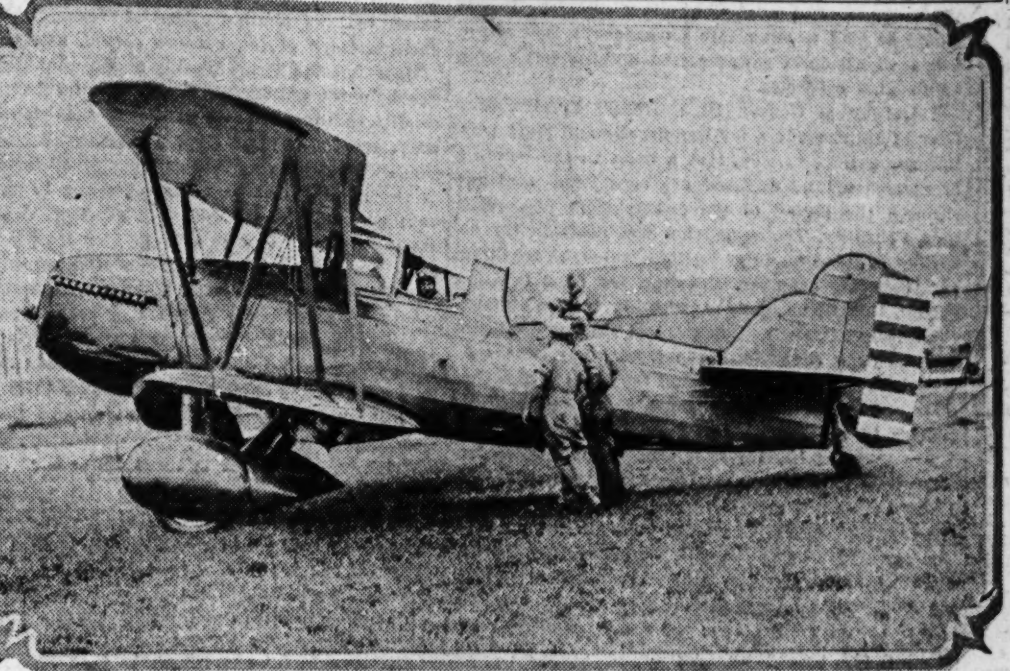

While accepting the French pro-
posal that disarmament follows
peace, rather than precedes it,
Guthrie also expressed the belief
that "general disarmament on a
very extended scale may take place
within a reasonable time with ab-
solute security to all nations con-
cerned. He based this belief upon
treaties and covenants looking to
security which already exists be-
tween various countries."

Referring to the work of the
European commission, the Cana-
dian delegate, indicated that he
would at some future occasion set
forth Canada's opposition to pro-
posals for tariff preferences for
European countries exporting
wheat. Canada, as one of the
world's great exporting countries,
is known to object to any such
preferential system as an infringe-
ment of her right to an open mar-
ket in Europe.

Ghika of Rumania Speaks.
Demetre J. Ghika of Rumania
also regarded disarmament as the
most pressing problem before the
Assembly. It is futile to argue, he
said, over the question whether

Speedy New Plane Tested for U. S. Army Flyers

THE Curtiss O-38 has a top speed of 178 miles an hour and a diving speed of 300 miles an hour and carries the latest improvements in observation planes. It was tested recently at Mitchel Field, L. I.

**HOOVER SEEKS CREDITS

**Confers With Bankers and Con-

national Meeting.**

By the Associated Press.

WASHINGTON, Sept. 9.—Presi-
dent Hoover is holding a series of
discussions with bankers and cot-
ton brokers over the possibility of
creating banking credits for ex-
ports of cotton.

At the same time the White
House and the State and Agricul-
ture Departments are considering
the possibility and advisability of
calling an international conference
on the subject of cotton produc-
tion.

The President believes, it was
said at the White House, that, so
far as this country is now con-
cerned, the necessity of establish-
ing credits for exports is para-
mount rather than talk of control
or restriction of acreage.

The President was described as
of the opinion that the Federal
Government had no agency through
which it could restrict acreage and
believed that such action was a
matter for the producers them-
selves to handle.

The President conferred at
length yesterday with W. L. Clay,
auxiliary, such as tug and mine
sweepers. The total naval tonnage
is 125,730.

Canada for French Formula.
Canada's support for the princi-
ple of "arbitration, security and
disarmament" was expressed in a
statement by the Canadian dele-

**MAN, WOMAN FAIL TO SET
LAND PLANE SPEED RECORDS**

**J. R. Wedell and Miss Maud Tait
in Tests; Former Averages
243 Miles an Hour.**

CLEVELAND, O., Sept. 9.—
Speed records for land planes still
stood today despite assaults yester-
day by J. R. Wedell, Patterson, La.,
and Miss Maud Tait, Springfield,
Mass.

Hurling over the three-kilometer
course at an average speed of 243
miles an hour, Wedell failed to at-
tain the world mark of 278 miles
an hour, made in 1926 by the late
Adjutant Bonnet of France. He
flew the Wedell-Williams special
that placed second in the Thomp-
son Trophy Race at the National
Air Races.

Miss Tait missed the women's
speed record of 216.64 miles an
hour by about one and a half mil-
es an hour. She piloted a tiny Gee
Bee monoplane.

The American speed record was
set by Lieut. Alford Williams in
1926, when he flew 266 miles an
hour.

**\$800,000,000 U. S. BOND ISSUE
NOT GREATLY OVERSUBSCRIBED**

**Unimpressive Response Due to Low
Interest Rate and Long Ma-
turity of Securities.**

By the Associated Press.

WASHINGTON, Sept. 9.—Over-
subscription by \$140,592,540 of the
Treasury \$800,000,000 3 per cent
20-24-year bond issue is announced
by Secretary Mellon. The respons-
e to the bond issue was unexpectedly
low, and while no Treasury officials
would comment, it was pointed out
the interest on the bonds was 75
per cent less than had been antici-
pated by financial interests of the
country. The issue also was for a
longer term of years than had been
expected and it was thought the
two factors combined toward mak-
ing money interests chary of the
issue.

At the same time, the other sec-
tion of the Treasury's \$1,100,000,
000 security issue, which was in
short-term certificates, was over-
subscribed four times.

The money raised in the \$1,100,
000,000 security sale will be used
by the Treasury to retire \$634,000,
000 of certificates which mature on
Sept. 15, to allow \$200,000,000 in-
terest on the public debt and pro-
vide funds for operating the Gov-
ernment until Dec. 15.

The small oversubscription was
regarded in some quarters as a
warning from financial interests
that the Treasury would have to
increase the interest if bonds are
offered in December when matur-
ing securities total \$990,000,000.

Secretary Mellon said all sub-
scriptions of \$100,000 or less to the
3 per cent issue would be allotted
in full.

PRUSSIA REDUCES BUDGET

**Economy Measures Are Expected
to Save \$50,000,000.**

BERLIN, Sept. 9.—The Prussian
Cabinet today adopted extensive

hopes to save about \$50,000,000.

The Prussian program is regard-
ed as important also as a guide to
be followed by other German
States.

**CHILE'S WAR CHIEF
SAYS ALL'S QUIET,
NO NEW REVOLTS**

**People Anxious to Get Back
to Work After Mutiny—
Presidential Elections to
Be Held Oct. 4.**

By the Associated Press.

SANTIAGO, Chile, Sept. 9.—The
mutiny quelled, the Chilean navy
dropped anchors today in and near
the port of Valparaiso under the
watchful eyes of the Air Corps. The
War Council began to weigh the
punishment to be meted out to its
mutineers.

The flagship La Torre, largest
fighting ship in Latin American
waters, was anchored at the Quin-
tero naval base. Its former rebel
commanders were in irons aboard
ship and about 1000 members of
the crew were quartered in bar-
racks ashore under guard.

The remainder of the fleet was
in Valparaiso Bay. Officers were
held on board pending further or-
ders and some of the sailors were
confined to barracks. Some will be
sent to Santiago for trial.

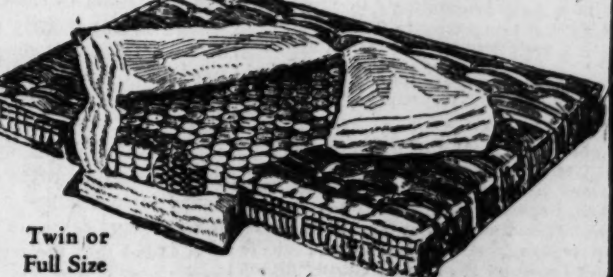

All the ships were conveyed in
last night by a squadron of hydro-
aeroplanes prepared to start bomb-
ing at the first sign of trouble.

Gen. Vergara, commander in
chief of the army and navy, said
all Chile was quiet. He denied ru-
mors that there was new unrest in
Antofagasta and Iquique.

The people apparently were anx-
ious to get back to work and were
desirous that the investigation of
the mutiny be terminated as speed-
ily as possible. As soon as condi-
tions become normal the campaign
for presidential elections on Oct.
4 will begin under the provisions
of a state of siege which continues
until the end of the month.

At the Quintero naval base it
was said that when the revolt
broke out the rebels jammed the
engines on most of the naval air-
planes, but the trouble was discov-
ered by a loyal officer, who or-
dered a rebel mechanic to repair
a plane at once.

THE POST-DISPATCH PLATFORM

I know that my retirement will make no difference in its cardinal principles; that it will always fight for progress and reform, never tolerate injustice or corruption, always fight demagogues of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare, never be satisfied with merely printing news; always be drastically independent; never be afraid to attack wrong, whether by predatory plutocrat, or predatory poverty.

JOSEPH PULITZER,
April 10, 1907.

LETTERS FROM THE PEOPLE

The name and address of the author must accompany every contribution, but on request will not be published. Letters not exceeding 200 words will receive preference.

War and Peace.

The argument offered in "Salute to War" is ably challenged by your editorial, "Give Peace a Trial." War seems constructive only because of its sheer ruthlessness it clears the field for new action and new ideas. Construction follows as a natural consequence and, if man had not been a builder as well as a destroyer, war would have finished him long ago. It is, therefore, not logical to conclude that without war there would have been no progress.

However, war is able to accomplish, for the time being, that which peace cannot seem to bring about: the rallying of an entire people to a common cause, a gesture in itself constructive, regardless of its object. War is cosmic, drawing the individual back into the mass, in defense of the race which includes the individual, peace is individual, the right of each man to go his way as he will. Peace lulls us into complacency only because man, as yet, has no concept of the possibilities of individual development under peaceful, rational, decent living conditions, which, for the greater part of humanity, still do not exist, nor any concept of the idea that while he is individual he is also cosmic. When we are able to infuse that same cosmic sense of one for all and all for one, that war engenders, into everyday living, real progress for the individual, as well as for the race, will begin.

If man is unfit for peace because he lacks moral and spiritual strength, perhaps a program for world peace should include a serious attempt toward moral and spiritual education of mankind, a task in which many feel the church has failed, and one which would undoubtedly start the finest kind of a fight. As one who also served in the World War, I believe, however, that the big field for human betterment lies in education, not in book knowledge alone, but in a new orientation to life itself. Yes, "It's a Long Way to Tipperary!"

WINFRED CARR STUMPE.

A Dangerous Stretch of Road.

The scenic railways at amusement parks are mild fun compared to the death trap that exists on Florissant road between Normandy and Ferguson. Motorists, unaware of the thrill that awaits them after the descent under the railroad bridge north of Normandy, have skidded around the bend on rainy nights in such a fashion that fields on both sides look like a parking place for dismantled automobiles. Such was the state of affairs after the recent deluge, when no less than three accidents, none fatal, occurred. On some nights the toll is higher.

The condition of the road is due to a layer of automobile oil which makes a splendid skating rink when covered with dew or rain. Although the County Highway Department's attention has been directed to the peril, the engineers have been content only with reconditioning the shoulders of the highway. It is with a desire to warn motorists and a hope that others can profit by past experiences that I am writing this. H. J. T.

Hoping for a Leader.

AMIDST the anguish of present conditions, the chaotic financial tangle, etc., the people send up a cry for deliverance. Is it not a reasonable hope to expect a Moses to arise and lead the masses from their present deplorable condition, bound with the chains of fear and suspicion? What an opportunity for someone, man or woman, to crystallize the almost universal opinion of this country that "something must be done" into action, by inspiring the interest of the general country before class, creed, party or principally self, lead us out of the purgatory into which we have been plunged.

Unlike many people who are unemployed, I am working. However I sit in an office with work cut to a fraction of its former volume, with the daily expectation that tomorrow I too will join the ranks of the 6,000,000, or whatever the number is, who are officially reported as unemployed. All my friends are in the same fix, walking about in a miasma of fear that the future will find them without employment.

Now, every instinct in me repulses this as an unwholesome state of affairs. We read the Declaration of Independence, and find that this country was founded on the principle that its children would enjoy "life, liberty and the pursuit of happiness." One is not living who is fearful, one is not enjoying liberty who is bound to the chains of fear, much less even deprivation or want of the common necessities, and it is indeed a futile pursuit of happiness that the average worker now has laboring under the present conditions.

Does not our general political plan need a complete overhauling? Many incidents make one wonder if somewhere, somehow, an individual could be found big enough to take the reins of government and really endeavor to let us all indulge in life, liberty and the pursuit of happiness.

KIRKWOOD, A. J. S.

FROCK COATS VS. LEADERSHIP.

Every once in a while, during the recurrent and usually rapid confabulations at Geneva, someone tosses a real idea before the frock-coated gentlemen who represent the nations there. Some years ago, at a meeting labeled "disarmament parley" in the Swiss town, Maxim Litvinoff, the Russian emissary, committed the unforgivable breach of politesse by taking it seriously. He proposed simply that all nations disarm and announced that Soviet Russia would be glad to enter into a compact to that effect. The seed Litvinoff sowed raised nothing but a crop of elevated eyebrows.

Yesterday at Geneva Dino Grandi, Foreign Minister of Italy, made a far less drastic and more feasible suggestion, namely, that a truce in the building of armaments be declared at once and continue through the period of the disarmament conference next February. The suggestion was made in the assembly of the League of Nations which, if anything, is a debating chamber. However, far from creating debate, this fine suggestion, coming from a country supposedly afire with imperialistic ambition, did not even draw a cheer from the frock coats. The only sequel was the broad smiles on the faces of the Germans, who are already disarmed, and some profitless chatter in the lobbies afterward.

The incident illustrates the bankruptcy of leadership from which the world suffers. Everyone, including the frock coats, or stuffed shirts, knows that the economic condition of the world is in no condition for a race in armaments. The peoples of Europe especially are groaning under almost confiscatory taxation, millions are out of work, industry is in the lowest ebb of many years, yet the Governments are shelling out money for warships, cruisers, submarines, poison gas, fighting airplanes, big guns, little guns and all the other paraphernalia of conflict. If the proverbial man from Mars should appear upon the earth, he would question the earth's sanity. He would be amazed at so-called political leaders who could correct this condition immediately if they had the gumption, force and cleverness to do so.

Gen. Tasker Bliss said the last war began because there were so many fellows running around Europe with rifles in their hands. There are more of such fellows today than there were in 1913. The military establishments of the various countries, as we pointed out some time ago, are far more elaborate and costly than they were in 1913. Entirely new armies have sprung into being, such as the army of Poland, the army of Yugoslavia, the army of Czechoslovakia, like so many dragon teeth planted by the so-called peace treaties.

But wholly aside from the temptation to war caused by readiness for it, the most conclusive argument against further armament is economic. Wealth poured into armies and navies is not bread cast upon the waters, but the sweat and labor of the multitude turned into waste. Money spent for guns and accoutrements is spent unproductively. Whatever arguments there may be for preparedness fall before the stark necessities of modern conditions. The world, in face of poverty, simply cannot afford to continue laying gold, frankincense and myrrh before the great god Moloch.

Mr. Hoover knows this to be true, as do Prime Minister MacDonald, Premier Laval, Mussolini, Stalin and all the rest of the responsible chieftains of state. To the end of coming to an agreement, a disarmament parley has been called, and it is to anticipate this parley and to create a favorable atmosphere for it that Grandi of Italy proposes a truce. Just yesterday we reprinted an article from the Springfield Republican which reviewed the opinions of the scholars who met at Williamstown last month to discuss the world's affairs. One of the most striking opinions offered and agreed upon by the assembled pundits was that the disarmament conference "is bound to be a failure and ought, for the sake of the disarmament cause, to be postponed."

It is not that the men at Williamstown are under any illusion that the world is not desperately in need of the economic relief occasioned by disarmament. They have merely scanned the political heavens and find no hopeful augury that the nations will agree to lay down their arms, even in part. They were unable to say that a world racked by the consequences of the last war has learned its lesson. Instead, they find fear, suspicion and hatred so prevalent that no nation has the courage and the wisdom to take the first step.

Grandi's offer, however, blunts the edge of Williamstown's pessimism. Italy, by the words of a responsible spokesman, is willing to call it quits. It is not necessary to peer behind Italy's motives. Perhaps it is because Mussolini finds it impossible to keep abreast of the armament race that he desires to stop it. Regardless of Italy's reason, however, she has made a splendid contribution to the solution of our common troubles. Is it only effect to be a little chatter in the lobbies of the League of Nations Building at Geneva?

It seems to us that Italy's offer presents Mr. Hoover with one of those opportunities that come to few Presidents. He could electrify the world by accepting Italy's proposal for the United States. Will he do so, or will he permit the Geneva conference next February to be another one of those dull, quarrelsome, compromising sessions that we have been led to expect from past performances?

The wine industry of Portugal is in a bad way, due to overproduction, and we are happy to come to their rescue at double-quick by proposing (1) that they pass a prohibition law and (2) hire Mabel Walker Willebrandt.

FAREWELL TO THE TRAMP STEAMER.

Bear with us a moment while we say a word for that once picturesque rover of the seas, the tramp steamer. From London comes the information that it is doomed to follow the sailing vessel to extinction. The change has come since the war and the extension of regular line shipping is said to be the cause. Once grain from Canada made its way to English breakfast muffins and tea cakes in lowly-laying haulers that nosed themselves up the Thames. Once the North Pacific was tramp territory. Now the holds of passenger liners and fast cargo ships carry the grains and other passenger lines make the strange ports, whose trade the tramp steamers once exclusively enjoyed. Today even the shipping posts on the River La Plata have scheduled calls. The passing of the tramp steamer is not unlike the passing of the American pioneer. Both were frontiersmen on a cutting edge linking the future and the past by means of a highly adventurous present. An unnecessary tribute in so inland a port as

ours? Well, not altogether. At least the bookkeeper who looks wistfully and reminiscently out of the dust-coated office building window toward the South China Sea will understand.

LEGISLATION AND COTTON.

On call of Gov. Sterling, the Texas Legislature assembled in special session yesterday to enact laws for curtailing next year's cotton crop. The Governors of other Southern states are reported as prepared to take similar action if Texas, which produces a third of the nation's cotton, sets the pace.

Meantime the Texas Weekly doubts that legislation can help the cotton situation and cites figures and conditions to show that cotton is suffering, not so much from over-production as from under-consumption. The trouble with cotton, examined in the light of the facts, seems to be that Europe is no longer buying as it formerly did. For example, Great Britain that used to buy an average of more than 10,000 bales a day at the beginning of the cotton season has taken less than that amount during the past month. Again, more cotton has been exported to Japan and China during the last 30 days—137,000 bales—than at all the rest of the world. Europe's purchases in the same time have been 107,000 bales, as compared with 365,000 bales during the corresponding period of last year. Ordinarily, Europe's consumption of cotton is three times that of Japan and China.

What will it profit the American planter to reduce his acreage and advance the price of cotton when Europe today is unable to buy 7-cent cotton? That is the question raised by the Texas Weekly, and restricted production and higher prices, we submit, do not seem to be the answer.

The rational answer is the revived buying power of Europe. Revived buying power is the rational solution to all the problems of over-production. How to revive buying power is the task of statesmen everywhere. It will never be solved by grasshopper economics.

WANTED: WORN OUT SHOES, ETC.

These are hard times for the man who uses crutches. When able bodied men and women cannot find work and are forced to rely upon the help of others for their living, the lot of the physically handicapped becomes worse than before. It is for these unfortunates that Goodwill Industries of St. Louis operates. Putting broken human beings, who have lost confidence in themselves, at work upon discarded articles, the result is the rebuilding of both. Cast off clothes, furniture, household goods and articles of many kinds are made usable again in a process that at the same time repairs hopes and renews ambitions. Not charity, says non-sectarian Goodwill Industries, but a chance; not alms, but opportunity; not a coin in his hat, but a tool in his hand. Its workshops at 1730 North Thirteenth street are a revelation. A phone call will secure a bag for discarded articles. A truck will stop for it when filled. Goodwill Industries well deserves co-operation as easy as that.

Our speed boat king gave that Britisher an awful soaking.

THE "MONEY PLAYER."

He appears in every sport. He is an amateur quite as often as a professional. Business knows him, too; so do the professions, the trades, the arts, every activity on the calendar, and always the university of public opinion awards him its *magna cum laude*. Sometimes a showy, pictorial person, with egotism bubbling out of every pore; sometimes a drab, diffident wight, who does his stuff and quietly slugs, leaving nothing but the fact that he delivered. Such is "the money player," and at last he has been explained.

The eminent Shakespearean scholar, Mr. Gene Tunney, tells us all about it in a book presently to be published, which a friend of the former fighter has written. The chap "who can turn on the switch that controls the automatic nervous system," we are informed, "is 'the money player.'" He is "cool, collected, confident and free from worry, with a consciousness of his own qualifications which makes for subconscious confidence. This is the psychological attitude I strove for before the championship match with Dempsey, and this attitude is responsible for my victory." Incidentally, Tunney remarks that Dempsey, "the greatest gymnasium heavyweight we have ever had," could never, by reason of his mental makeup, qualify as a "money player."

So now we know how it is that Andy High, for example, when the fortunes of Messrs. Breadon and Rickey are trembling in the balance, invariably slams out a two-base hit; now we know how "Sparky" Adams, who can't play third base, contrives to play the position rather better than anyone else through the blossoming springs and burning summers and embazoned autumns of the marching seasons. Now we know why Bill Tilden, in the faltering senility of the decrepit thirties, still manages to wear a tennis crown. The reign of Emperor Jones is now accounted for, and the mystery of our Ford, Edisons, Rockefeller, Mellons, and all the top-notchers, is happily solved. They just give the switch a turn that starts the nerve motor throbbing, flash a signal to their subconsciousness and come galloping home with the bacon.

Cannot a "money player" be found somewhere to land a psychological wallop on the business depression's button?

RECALLING THE VOLUNTEER BRIGADE.

Information that a volunteer fire brigade is being formed by residents of Dewey Heights brings with it happy recollections of a long-forgotten past. Time was the volunteer brigade enjoyed a place of honor and distinction in every self-respecting town. Its offices were the posts of prominence, achieved only in reward for long and meritorious service. Back in the days of the handle-bar mustache, wearing the chief's badge was as high as a man could go. Directing operations when the lumber yard, burned at 2 a. m., with the whole town looking on, was by common consent the pinnacle. When he retired a chief became chief emeritus and, as one of the local sages, was called to pass judgment on everything from the new school mistress to the canned fruit entries at the fall festival. But times changed. The red-striped buckets went to the dump and the hand-pulled hose cart followed the high-wheeled bicycle and the lumbering beer wagon into the dusk of social history. An institution passed. For the revival on Dewey Heights we have only the best of wishes. It has recalled a parcel of pleasant memories, and now that they have been recalled we place them back upon the shelf, there being nothing else to do with them.

TIME FOR A REST.

Waning Power of the Press

Both number and influence of dailies are waning; absentee ownership reduces vigor of publications; economic struggle prevents crusading, as in former times; individuality of editors no longer impressed on publications; assumption that public wants sensationalism is false; loss of prestige due to voluntary abdication of leadership.

Oswald Garrison Villard, Editor of the Nation, in the Forum.

DESPITE the increased news we are printing, both foreign and domestic, despite much intelligent comment, the fact is that the power of the press in the United States and elsewhere to influence public opinion is declining.

Within 10 years, fully 200 American dailies have perished, and the births hardly offset a tithe of the loss. There is now evidence that the trend among newspapers is as distinctly toward monopoly as elsewhere in industry. Chicago, for example, has practically only two morning dailies, Pittsburgh but one. New York has seen in recent years the disappearance of the Herald, Sun and World from the morning field. There are only three serious English language ones left, and one of these is very weak.

Again, we have the phenomenon of chain ownership by Mr. Hearst, Mr. Gannett, the Scripps-Howard syndicate, the Ridder brothers, and various other groups. This control of many dailies brings with it their standardization, the simultaneous printing of the same editorial in perhaps 26 cities, the absence of any powerful local figure in the editorial rooms and, finally, absentee ownership. Each one of the three daily newspapers of Pittsburgh, for example, is owned and managed from New York.

More than that, we have the disappearance of the great editor, the vibrant personality often nationally known, like Henry Watterson, Horace Greeley, Godkin, Charles A. Dana, Samuel Bowles and many others. In some cases, as in that of the New York Times, this is a deliberate policy. Mr. Ochs feels that the institution should be everything and should transcend not only the owner, but any editorial personage.

In other cases, the great editor does not appear because the daily no longer offers him the editorial freedom it formerly did—Mr. Godkin was as unhampered by the ownership of the Evening Post as if he owned it himself, while Mr. Dana, Mr. Greeley and Mr. Bowles owned their own papers.

The modern newspaper owner is engaged in a life and death struggle against steadily rising costs and fierce competition in a business which requires ever greater capital investment. He wants to live at peace in the community—at peace with every group. He desires no crusading editor and no muckraker to attack capital or privilege, or ventriloquist, whether those be bootleggers or corrupt machine politicians or conscienceless managers of public service corporations.

Yes, the newspaper manager of today must advance; year by year he must show increased circulation for its own sake and in order to get more advertising. To stand still is to die. As a result the editorial page, provided it is safe, sane and harmless, interests the business manager far less than Calvin Coolidge's daily platitudes or the latest comic strips. Some of our richest and most successful dailies are practically without editorial pages; at least there are those like the Philadelphia Bulletin and the New York Sun that are without any forceful or distinguished or effective editorial writing.

The truth is that the newspaper proprietor who is out for the dollars solely is afraid

WASHINGTON, Sept. 8.

THE bespectacled young Senator from Michigan, Arthur Vandenberg of Grand Rapids, for a long time has warred against what he calls "synthetic antiques." Resident of a city famed for its furniture manufacture, he is concerned that spurious "antiques" are slipping by customs agents into this country in vast quantities.

So it must have been good news to him when he learned the other day that the Government had designated 10 ports only through which antiques from abroad could be cleared. There are only a few experts capable of swift appraisals, and because they are concentrated at these 10 ports the action was taken.

AUTHENTIC antiques in general, that is, articles of artistic merit made prior to 1830, enter the United States duty free. But take it from Senator Vandenberg, "synthetic antiques," especially furniture, get by the customs officials in great quantities. As nearly as he can figure it, the amount runs to some \$15,000,000 annually.

"The production of this synthetic furniture in Europe," he says, "has come to be a mass operation. The highest priced wood in France today is wood out of old bridges and old barns, which is sold to antique furniture manufacturers. Old nails are at a premium."

The Senator says he has discovered some interesting details of the business of "faking antiques." One is a little machine which in some respects suggests a dentist's drill, but which is flexible. This machine makes the worm holes "which subtly testify to antiquity." "It is one of the refinements," he says, "of these deliberate frauds."

VANDEBERG does not contend that faked antiques are confined entirely to importations. He admits readily that there is "faking" in this country, but his point is: "None of it cheats American labor, none of it cheats American capital and none of it cheats the Treasury of the United States."

He made a valiant fight in the last Congress to attach a 50 per cent penalty duty to furniture seeking free entry as "antiques," but found spurious in the judgment of customs experts. He wanted only those articles imported for resale included. After some two hours of debate, the Senate voted a 25 per cent penalty.

PUNISHING THE WILD DRIVER.

LONDONERS seem to take public safety seriously, as they do their laws. An art dealer in the British capital has permanently lost his license to drive a motor car. Twenty-nine years old, surely old enough to know better, this Londoner was charged with driving while under the influence of drink, driving dangerously and driving while disqualified from holding a license. He had been thrice convicted of driving in a dangerous manner, twice of driving while drunk and twice of driving while disqualified. In addition to being forbidden ever to drive again, he was sentenced to six months in jail.

What would Minnesota do to this kind of menace to public safety? Lacking a driver's license law, what could Minnesota do?

EDISON FAILING BUT STILL TAKES DAILY AUTO RIDES. Prefers to Take His Oxygen Tank in Room. WEST ORANGE, N. J., Sept. 8. Despite the opinion of his physician that he is slowly and definitely failing, Thomas A. Edison insists on getting his oxygen in daily automobile rides and has refused to take any from the tank which is kept in his room. Dr. Hubert B. Howe, the inventor's personal physician, believes there is no reason for immediate concern. "When I say that Mr. Edison is slowly and definitely failing," Dr. Howe explained, "I do not necessarily mean that he cannot live; he might surprise us." Edison, who suffered a collapse several weeks ago, is still taking his daily auto rides. A day and a night of rest, however, makes daily New Public. The recent of Edison's Chouteau at inspection of floors of the to be used the Evangelical activities w and church are publish

EDISON FAILING BUT STILL TAKES DAILY AUTO RIDES

WEST ORANGE, N. J., Sept. 9.—Despite the opinion of his physician that he is slowly and definitely failing, Thomas A. Edison takes his daily automobile rides and has refused to take any from the tank which is kept in his room.

Dr. H. S. Howe, the inventor's personal physician, believes there is no reason for immediate concern. "When I say that Mr. Edison is slowly and definitely failing," Dr. Howe explained, "it does not necessarily mean that he cannot live; he might surprise us."

Edison, who suffered a collapse several weeks ago, has been suffering from uremia, diabetes, and Bright's disease.

"The diabetic condition has practically cleared up," Dr. Howe said, "but the uremia is gradually becoming worse and is interfering with his organic functions."

A day and night nurse are in attendance at the Edison home in Llewellyn Park and Dr. Howe makes daily visits.

New Publishing Building Open.
The recently completed building of Edson Publishing House, at 1712 Chouteau avenue, will be open for inspection until Sunday. Upper floors of the five-story building are to be used for executive offices of the Evangelical Synod of America. On the lower floors the printing activities will be conducted. Books and church and school periodicals are published.

SOCIAL ACTIVITIES

MISS LULIE SIMMONS, daughter of Mrs. George Welch Simmons, 21 Westmoreland place, was a bridesmaid at the wedding Monday of Miss Jane Clay Zevely, daughter of Mrs. James W. Zevely and the late Col. Zevely, to Lloyd Hilton Smith, which took place in the terrace garden of the Zevely summer home on the ocean front in Easthampton, L. I. Mr. Smith is the son of Mr. and Mrs. Roland Hilton Smith of Merton, Pa. A garden reception followed. The bride is well known in St. Louis and has visited here several times. She wore a gown of ivory satin with a veil of old family rose point caught with a clasp of orange blossoms. She carried white orchids. Mrs. Avery Sherry, matron of honor, and Miss Ann Marvel, maid of honor, wore salmon pink gowns and plumed hats to match. The bridesmaids were in shades of pink with matching accessories and carried shaded African daisies.

The ushers included Edward H. Manville Jr., whose sister Estelle, the Countess Bernadotte of Sweden, has been a frequent visitor to St. Louis. Following a wedding trip Mr. and Mrs. Smith will live at 1150 Fifth avenue, New York.

Miss Simmons, with her mother and sisters, Miss Virginia and Georgia, have spent the summer at Manhasset, L. I., where they had a cottage, and have visited Mrs. Simmons' brother and sister-in-law, Mr. and Mrs. Thomas H. Wright of Portland place, at their cottage in Southampton.

Mr. and Mrs. Russell Luce McIntosh, whose marriage took place a few weeks ago, are spending their honeymoon in Biarritz, France. They will return to New York the last of September and will make their home at the Hotel Elysee. Mrs. McIntosh was Mrs. Lois Kilpatrick Perry, daughter of the late Mrs. Claude Kilpatrick of Portland place.

Mrs. Alice Orthwein Helmsler, 5074 Waterman avenue, and her daughter, Miss Helen Helmsler, who spent the early season in Wequetonsing, Mich., with Mrs. Helmsler's mother, Mrs. William D. Orthwein, 15 Portland place, at her cottage, are now on a motor trip East. They attended the national air races in

Cleveland, and visited in Montreal before going to Quebec, where they are now guests at the Chateau Frontenac. They will motor home by way of New York, Boston and Washington.

Mrs. Harold M. Kauffman, 51 Portland place, is expected home about Oct. 1 from Santa Barbara, Cal., where she has been at the Santa Barbara Biltmore for the summer. Mr. Kauffman has returned. Their daughter, Miss Janet, is traveling in Europe with her grandmother, Mrs. Isaac W. Merton, 53 Portland place.

Miss Susie and Miss Elizabeth Singleton, daughters of Mr. and Mrs. Marvin E. Singleton, 37 Washington terrace, have returned from Watch Hill, R. I., where the family had a cottage for the summer. Mr. Singleton returned about a week ago and has gone to farm in Texas for a visit. Mrs. Singleton has been visiting in New York and returned yesterday.

Former Gov. Frederick D. Gardner, who, with Mrs. Gardner, have been in La Jolla for the summer, has gone to Alaska with a party including James Smith and his son, Dozier Gardner. The Gardner family will remain in the West for several weeks.

Mr. and Mrs. C. Oscar Lamy of Forest Ridge and their family have returned from Wequetonsing, Mich., where they spent the season.

Mr. and Mrs. Eugene B. Stinde, 6379 Waterman avenue, and their daughter, Miss Louise Montague Stinde, have returned from California, where they have been all the summer. They spent much of their time in La Jolla, where a large colony of St. Louisans has been for the season, and visited Coronado, Santa Barbara and Los Angeles.

Mrs. Scott Porter of the Coronado Hotel sailed yesterday on the De Grasse for New York, after a summer tour of Europe.

Mr. and Mrs. Charles Wiegand of the Oxford Apartments have returned from a summer visit in Swampscott, Mass.

Mr. and Mrs. John H. Overall of Kent road, with their daughter, Miss Amelia, and their son, John Jr., who have been at Easthampton, L. I., for the summer, are expected home early in October.

Miss Mary Louise Aid, daughter of Mr. and Mrs. Francis A. Aid of the Park Plaza, with Mr. and Mrs. Robert L. Lund, 5968 West Cabanne place, and their daughter, Miss Dorothy, returned a few days ago from Rye Beach, N. H., and Swampscott, Mass., where they spent the summer. They spent a few days in New York on their way to St. Louis. The young women are tentatively on the debutante list for fall.

Mr. and Mrs. J. Spencer McCourtney, 6156 Westminster place, and their daughter, Miss Barbara, have closed their cottage in Wequetonsing, Mich., and returned to St. Louis.

Mrs. D. B. Hussey of the Park Plaza returned home a few days ago from Magnolia, Mass., where she spent the summer. Her daughter, Mrs. James Lawrence Bailey of New York, who was at Narragansett Pier, R. I., for the season, joined her for a visit during the season.

Dr. and Mrs. C. DeWitt Lukens, 4910 Laclede avenue, who have been spending the summer at their cottage, Tamarack Lodge, on Lost Lake, Sayner, Wis., will have as their guests this week Mr. and Mrs. George Vierheller, 6239 Rosebury drive, Father Joseph Sullivan and Edwin A. Lamp of Lemoyne Farm, Kirkwood. Mr. and Mrs. Vierheller and Father Sullivan departed this morning by motor for Oconomowoc, Wis., to join Mr. Lamp who is there visiting his sister, Mrs. Pabst. Later Mr. and Mrs. Vierheller will go to Chicago for a convention, and then make a trip through Canada.

The wedding of Miss Ellen Grace Greenwood, a daughter of William Greenwood of Roanoke, Va., to Robert Andrew Duncan of Cincinnati, took place late Sunday afternoon at the Second Presbyterian Church. The bride has spent the summer in St. Louis with her brother-in-law and sister, Dr. and Mrs. Jacob Leptich, 6520 Pershing avenue. Mrs. Leptich was matron of honor; Mary Frances Leptich, flower girl, and Marvin Diamond, ring bearer. Dr. Leptich gave the bride in marriage and Albert Richardson of Cincinnati, best man.

Mrs. Duncan was a member of the faculty at the Florida State College for Women. Mr. Duncan is associated with Procter & Gamble Co. They will be at home at 129 Wyoming avenue, Wyoming, O., after Sept. 15.

ST. LOUISAN AGAIN HEADS U. S. BETTER BUSINESS BUREAUS

Harry W. Riehl is Re-elected at Conference Held in Cincinnati.

Harry W. Riehl, head of the Better Business Bureau of St. Louis, was re-elected president of the Affiliated Better Business Bureaus, Inc., the national organization, at the annual conference of the association at Cincinnati, O., last week. Riehl has been engaged in Better Business Bureau work for 12 years and took over the management of the local bureau eight years ago. In that time the membership of the bureau here has increased from 200 to more than 1000, and it now regularly handles 1500 to 2000 inquiries each month in an effort to protect the public against misrepresentation, deception and fraud in advertising and selling.

U. S. SENATOR'S SON ELOPES WITH HIGH SCHOOL CLASSMATE

John Champ Neely, 17, Weds 16-Year-Old Daughter of a Metal Worker.

FAIRMONT, W. Va., Sept. 9.—The story of how he eloped to Cumberland, Md., with the 16-year-old daughter of a Fairmont metal worker, was told to a society editor here last night by John Champ Neely, 17, youngest son of United States Senator M. M. Neely. Young Neely called at a local newspaper office and announced that he and Mary Kathryn Faust, a classmate in Fairmont High School, had motored to Cumberland Aug. 1 and were married by the Rev. W. A. Eisenberger at the First Presbyterian parsonage. "Aren't you Senator Neely's son?" the young man was asked. "Yes," he replied, "but you needn't mention that."

Senator Neely said today he had learned of his son's marriage only yesterday. He declined to comment further.

The young couple, who are seniors in high school, plan to continue their studies. They are making their home with the bride's father, Henry Faust.

Young Neely recently won a West Virginia State oratorical championship.

PORTABLE TELEVISION CAMERA

Designed to Pick Up Radio Pictures Indoors and Out.

By the Associated Press.
NEW YORK, Sept. 9.—A portable television camera, designed to pick up radio pictures from a flood-lighted stage indoors or from a sun-lighted arena outdoors, was publicly demonstrated here yesterday.

Built to duplicate to a certain extent the accomplishments of the movie camera, the outfit uses a photo-electrical cell in place of a film and turns its pictures into electric energy rather than storing it up on celluloid. The camera is moved about under its own power supplied by a motor. There is provision for quick focusing to follow an object about, and the whole camera head can be swung up and down and back and forth. A viewing window permits the operator to see what he is getting.

Old County Resident Dead.

Louis Peeters, for 68 years a resident of St. Louis County, died of the infirmities of age last night at the home of his daughter, Mrs. John Jacobs, 8111 St. Charles road. He was 96 years old. He operated a truck garden for many years but retired in 1904. The funeral will be held Friday afternoon at 2:30 o'clock at Grace Lutheran church. Two daughters and five sons survive.

BEAUTICOLA
HAVE BEAUTIFUL SKIN
and eliminate once and for all rough, dry and harsh skin, as well as pimples, blackheads, dark spots, and other skin blemishes. Use Beauticola, proved by 40 years' trial, 15,000 testimonials. "I can speak very effectively of your Beauticola cream and Beauticola as I am a good example of what they do. I am 46 years old, and but for gray hair, we are would guess me that by twenty years." Mrs. E. W. C. Pittsburg, Kansas.

At dealers or direct by mail, \$1.00. Beauticola Co., Saint Louis, Missouri.

GRAY, FADED HAIR FIRST SHOWS AT TEMPLES

After 30 look for tell-tale threads of gray at your temples.

Women with modern ideas, sensible about their hair as their complexion, will not stand for "grandmother's hair" that makes them look old and feel old when their friends are easily keeping all their hair one youthful shade with a clean, safe, odorless preparation that leaves it soft and pretty with a natural sheen and texture.

Look among your friends and see how many smart women are making no secret of "touching up" graying hair, with no thought of deception. They simply know they LOOK better and FEEL better and younger. They are invited into a younger set when their hair is free from gray. FARR'S gives any shade. \$1.35, for sale everywhere.

STOCKS HOLD ON COVERING; STEEL BELOW 80 FOR TIME

Market Rallies a Little in Morning After N. Y. Central Dividend Cut, Says When General Motors Is Sold and Then Makes Irregular Recovery.

By the Associated Press.

NEW YORK, Sept. 9.—The stock market was bolstered by short covering today, and offered better resistance to selling, although several prominent issues again recorded new lows for the bear market.

The market rallied a little in the morning, sagged during the middle of the day when General Motors was heavily sold, but made irregular recovery in the final dealings. The market closed barely steady, with mixed gains and losses, largely by narrow margins. Bonds also were irregularly lower. Rail bonds did a little better today, but foreigners were under pressure. U. S. Government bonds were lower, as the new 3 per cent bond issue was oversubscribed by a comparatively narrow margin.

General Motors declined 1 1/2 to within a fraction of the year's low, then recovered fractionally. American Telephone recovered a similar decline to a fraction. DuPont declined nearly four points, in sympathy with General Motors, but recovered partially. U. S. Steel declined fractionally to a new low since 1921 at 75, then recovered. New York Central recovered more than a point to short covering. Other issues closing a point or so higher included International Telephone, Air Reduction, Atchafson, New Haven and Union Pacific. The gold mining stocks recovered, although the Alaskan activity, Alaska Juneau, recent pool favorite, was bid up more than a point, and joined by Homestake, ordinarily a thinly traded issue, which surged up more than seven to a new high for the year. Sales were again around 2,000,000 shares.

Commodities were inclined to rally. Cotton futures closed 85 to 95 cents a bale higher, possibly reflecting Washington reports of the attention being given the cotton problem by the administration. Foreign exchanges were generally firmer, although the Canadian dollar declined moderately, getting back to 93 cents. Sterling was well supported, cables ruling at \$4.86, up 1-16 of a cent. Leading Latin American currencies were a little higher.

Little in Statistics. The midweek business statistics provided little impetus to the market in either direction. The further cut in New York Central's quarterly payment from \$1.50 to \$1, after reduction from \$2 earlier in the year, had a slight discounting effect by recent selling of the stock, which recorded a record low for the century yesterday.

The regular payment announced by Western Union yesterday has caused a little more cheerful attitude in the stock market. There have been further rumors of selling from abroad in the stock market this week, particularly from London. The German situation, however, continues reassuring, what with the rally in the Berlin bourse, and the stronger position shown by the Reichsbank in its weekly statement. The statement showed gains in both gold and foreign exchange reserves, particularly the latter. The reserve ratio improved to 42.2 per cent, compared to 39.2 last week.

Steel Trade Review. The weekly steel trade reviews showed a moderate curtailment of output, largely as result of the Labor day holiday. Freight car loadings rose about 15,000 cars in the week ended Aug. 29, the best gain in some time, but still under the average upturn for that period for recent years.

WESTERN POWER LIGHT & TELEPHONE CO. Dividend on the 7% Preferred Stock, Series A

The Board of Directors has declared the regular quarterly dividend on the 7% Preferred Stock at the rate of \$1.75 per share, payable October 1, 1931, to holders of record at the close of business, September 15, 1931.

Payment will be made in cash to all holders who have not requested reinvestment of dividends.

Nathan L. Jones, President.

THE PUBLIC UTILITY INVESTMENT CO. Dividend on the 7% Preferred Stock

The Board of Directors has declared the regular quarterly dividend on the 7% Preferred Stock at the rate of \$1.75 per share, payable October 1, 1931, to holders of record at the close of business, September 15, 1931.

Payment will be made in cash to all holders who have not requested reinvestment of dividends.

Nathan L. Jones, President.

TODAY'S NEW YORK STOCK MARKET (COMPLETE) SPECIAL ASSOCIATED PRESS WIRE.

NEW YORK, Sept. 9.—Total sales today on the New York Stock Exchange amounted to 2,006,720 shares, compared with 2,013,560 yesterday, 92,935 a week ago and 2,481,420 a year ago. Total sales from Jan. 1 to date were 399,197,233 compared with 593,325,570 a year ago and 761,610,630 two years ago.

Following is a complete list of stocks traded in, giving sales, high, low, close and net changes:

Shoes

Adornment and protection for the feet of man. Beautiful in form: Line and curve melting into an artistry of comfort. Gently caressing delicate nerves: yet sturdily defending against the elements and forces of the earth. Bearing a myriad blows, while giving security and ease, as gifts, to those they serve. A necessity for rich and poor, a luxury to all. For fine shoes bear every man, whatever his station in life, with equal dignity. Last and lowest in degree, they are the crown of fashion. Though given scant tribute or praise, they voice their own biographies. An ill-shod man pauperizes himself. A shoeless man would provoke a cynic's pity. It has been well said, a gentleman is discerned by his linen and his shoes: these portray the man. The philosophy of clothes begins and ends with, how well and wisely we clothe our feet. The epic of shoes is still being written. Long years of invention. Human struggle! Defeats! Victories! Then, one by one, machines—the accumulated life-product of these sons of genius, who toiled, achieved, and passed on to others, the quenchless flame of their wills—to clothe with even better, still better shoes, the feet of man.

EMBEZZLER'S LOOT AT CHICAGO BANK PUT AT \$3,665,000

Chairman of Continental Illinois Board Says Insurance and Reserve Fund Will Cover Loss.

By the Associated Press.

CHICAGO, Sept. 9.—The defalcations of Walter E. Wolf, former \$75-a-week manager of the coupon collection department of the Continental Illinois Bank & Trust Co., have been fixed at \$3,665,929.06. This was announced last yesterday by Arthur M. Reynolds, chairman of the bank's board of directors, who said the entire amount probably would be recovered, partly from \$2,000,000 of insurance. The balance of loss over the \$2,000,000 insurance was charged out of a special reserve fund. The bank has resources of more than \$1,000,000,000, the reserve fund alone amounting to \$10,000,000.

Reynolds said Wolf, who confessed he took bonds and used them as margin in stock market transactions, removing the bank's records to avoid detection, was ready to "pay the penalty for his act."

Reynolds added that an investigation gave rise to the belief that Wolf had accomplices, but that they were not in any way connected with the bank.

WOMAN, 85, FACING LIFE TERM, PAROLED TO SALVATION ARMY

New York's "Habitual Criminal" Is Accused of Larceny in Stock Fraud.

By the Associated Press.

NEW YORK, Sept. 9.—Mrs. Marion La Touche, who at 85 faces life imprisonment as a habitual criminal, was placed in the custody of the Salvation Army today by Judge George L. Donnellan.

Charged with larceny she received a suspended sentence and was turned over to Staff Captain Agnes H. Muckerman of the Salvation Army, who promised the organization would be responsible for her future actions and would place her in one of its homes.

Mrs. La Touche was indicted for larceny on the complaint of another woman who had given her money to invest in stocks but had received neither the securities nor a refund. The aged woman, it developed, had been speculating with the money.

She was first convicted in 1884 and during her long career has been arrested in Boston, Philadelphia and Chicago.

FEDERAL JUDGES TO DISCUSS SPEEDING OF COURT PROCEDURE

Conference Will Be Called on Return of Hughes From Europe Tomorrow.

By the Associated Press.

WASHINGTON, Sept. 9.—A conference of senior Federal Court Judges will be called by Chief Justice Hughes on his return tomorrow from a summer vacation in Europe.

In its consideration of conditions in Federal courts throughout the country, the conference is expected to take up the recommendations of the Wickham Commission for speeding court procedure and altering certain court conditions. Reports by each judge on conditions in his circuit and recommendations by Attorney-General Mitchell will be studied.

TRANSFER OF 8 POLICEMEN Detectives and Uniformed Patrolmen Exchange Places.

A transfer of detectives and uniformed officers was announced at Police Headquarters today. "For the good of the service."

Detectives Lester Klasing, Louis Brusatti, Charles Young and Edward Emerick to uniform duty at the Wyoming, Soudard, North Market and Dayton districts, respectively; Patrolmen John McGovern, William District; August Waller, Soudard; Jack Harding, North Market, and Charles Bergman, Dayton Street, to the detective bureau.

C. H. FISK HELD INCOMPETENT Former Director of Streets Is in Veterans' Hospital.

Clinton H. Fisk, Director of Streets and Sewers, during the Klei administration, was declared of unsound mind by a jury in Probate Court yesterday. His wife, Mrs. Sarah O. Fisk, 5142 Westminster place, was appointed guardian for him.

Fisk, who served in the World War with the rank of Major, is a patient at Veterans' Hospital at Jefferson Barracks, following a nervous breakdown suffered several months ago.

Raid on Missouri Fraternity. Special to the Post-Dispatch.

COLUMBIA, Mo., Sept. 9.—Eight men were arrested here early this morning in a raid by police on a dice game in the Kappa Alpha fraternity house. They gave police their names as Ed Linebeck, Alfred Kaufman, J. F. Flannigan, M. S. Carrithers, Ed Estes, Robert V. Logan, G. Killo and Andrew Squires. The eight pleaded guilty in police court and were assessed \$9.45 each in fine and costs.

GANDHI DOESN'T WANT TO BE GUARDED AGAINST ASSASSINS

"If Anybody Wants My Poor Life, He Can Have It," Mahatma Tells London Authorities.

By the Associated Press.

ABOARD THE S. S. REPUTANA, Sept. 9.—Mahatma Gandhi would rather not have detectives watching over him day and night when he gets to London for the round table conference. "If anybody wants my poor life, he can have it," he said today. "It's all I have to give for the cause of Indian independence. God is my only protector."

His colleagues wireless British officials that he preferred to cover the last leg of the journey from the English coast as an ordinary traveler by train rather than by automobile as the Government had planned.

Amulance in Crash; 3 Hurt. Three persons suffered lacerations and bruises when an ambulance driven by Earl Wisman, 429 North Euclid avenue, collided at 7

u. m. today with a small coupe, driven by Arthur Spencer, 4226 Meramec street, at Newstead and McPherson avenue. Besides the two drivers, Spencer's sister, Rose, was slightly injured. Police placed a charge of careless driving against both drivers.

Bank Robbers Take \$2000. By the Associated Press.

OKMULGEE, Ok., Sept. 9.—Two men escaped with about \$2000 today after robbing the Morris State Bank of Morris, seven miles east of here. The men disappeared after locking three employees in the vault.

WALTER HUNTER NO. 10 OF TATE 'CATERPILLARS'

Missouri Militia Expert Packed Parachute Used in Leap at Cleveland.

Master Sergeant Jimmie Tate, parachute expert of the Thirty-fifth Division Air Service, Missouri National Guard, has added another "caterpillar" to his list.

Walter Hunter, Sparta (Ill.), pilot who leaped from his burning plane Monday at Cleveland when it took fire during the Thompson Trophy speed race, told Sgt. Tate yesterday that a parachute packed by Tate had carried him down to safety. He jumped from an altitude of 150 feet for one of the lowest emergency parachute escapes on record.

Hunter's was the tenth emergency jump to be made in parachutes packed by Tate. The list of "Tate Caterpillars" is headed by Col. Lindbergh, who twice jumped from planes on the St. Louis-Chicago air mail route in parachutes prepared by the National Guard man. Lindbergh is the only "four-star" member of the mythical Caterpillar Club, composed of airmen who have saved their lives by emergency jumps.

Among recent "Tate Caterpillars" are Maj. Jimmie Doolittle, who leaped from his disintegrating racing plane last June; Capt. Fred Nelson of the Army Air Corps; Capt. William Wimer, operations officer of Tate's outfit, and "Casey" Lambert, wealthy St. Louis flyer. Lambert gave Tate a watch, suitably inscribed, after he and Herbert Condie Jr. had jumped safely from a disabled plane.

GERMAN FLYER GETS THRILL CROSSING OCEAN ON BOAT

Capt. Wolfgang von Gronau Who Came Over Twice by Plane Found It Dull.

By the Associated Press. NEW YORK, Sept. 9.—To Capt. Wolfgang von Gronau, who twice within a year has flown from Germany across the Arctic to the United States, flying is not nearly as thrilling as crossing the Atlantic on board a modern liner.

He said so today as he and his three flying companions prepared to board the steamship Hamburg for Germany. "Flying is nothing; it's dull, it's a bore," declared the airman who braved the Arctic to chart an air mail course between Europe and America.

"You sit there hour after hour and what do you see? Who do you talk to? What can you do? You just sit there and waggle the stick or the wheel a little. That's all there is to it."

"Everybody wants to pretend it's such a big thing to do. Ach, do you know what we are looking forward to with such pleasure? To crossing on the boat! It's like paradise. That's adventure for you now—interesting people to talk to, strange dishes to eat, new luxuries all the time."

APPEALS TO U. S. FOR SERUM TO TREAT ADDISON'S DISEASE

Chicago Doctor Finds Usual Supply Is Not Available; Mother of Six Stricken.

By the Associated Press. CHICAGO, Sept. 9.—Dr. Richard Torpin today sought the aid of scientists and physicians throughout the nation in his search for enough cortin serum to treat a Chicago woman, the mother of six children, stricken with Addison's disease.

The woman, suffering from the rare disease which generally proves fatal, is Mrs. Andrew Nelson. Dr. Torpin received word last night from Detroit, where the serum is developed, that no supply was available.

The gland product is derived from the adrenal glands of cattle. Its manufacture requires the glands of 150 cattle for a single day's treatment. Mrs. Nelson should have a week's treatment to insure recovery, Dr. Torpin said.

Addison's disease was first recognized by Dr. Thomas Addison of London. It manifests itself in an exaggerated pigment of the skin, weakness of the heart action and irritability of the gastro-intestinal tract. The medical profession supposes it is of nervous origin.

\$2561 DISCREPANCY IN

ST. CHARLES OFFICER'S BOOKS Auditors Think It Probably Due to "Inefficient Check" Between Water Department and Collector's Bureau.

Investigation of a \$2561 discrepancy in the records of the City Collector's office at St. Charles for the period of July 1, 1929, to April 15, 1931, has been begun following the report of an auditing company made last night.

In its report, the auditing firm, Perkins & Co. of St. Louis, said that the discrepancy was probably due to an "inefficient internal check" between the Water Department and the Collector's office. A. F. Werremeyer, who was Collector during the period, is aiding in the investigation.

Zeigler Depositors Get 10 Pct. ZEIGLER, Ill., Sept. 9.—Fred Bagley, receiver of the Zeigler State Bank, announced today that checks are being prepared to pay the first dividend to depositors, the checks will approximate 10 per cent of the deposits in the bank at the time it was closed six months ago, the receiver said.

31 Handbook Raids, 47 Arrests. Police continued their campaign against bookmaking establishments yesterday with 31 raids, arresting 47 men. The suspects were booked to appear in Police Court tomorrow on vagrancy charges.

Test it at our risk

Please don't take our word for these statements. All we ask is that you make the economy test yourself and be the exclusive judge.

Order a pound of Maxwell House at your grocer's. Prepare it in your usual way. Then if you and your family don't agree that it is the finest coffee you ever drank; if you don't find that it is real economy compared with weaker, Oxygen-robbed coffees, simply return the can with unused portion to the grocer from whom you bought it and he will return your money.

Oxygen can't hijack Maxwell House flavor

That's why the new VITA-FRESH Process is winning new friends for this famous coffee

ONCE you have tried your first can of Maxwell House packed by the new Vita-Fresh method, you will realize why you have never been quite sure about your coffee.

For Maxwell House, packed this new scientific way, is always uniform in strength and flavor. Because it is strictly fresh, not robbed of its precious fragrance and aroma by Oxygen, you can follow the simple directions on the package and get a superb cup of coffee every time.

Coffee flavor is highly perishable. Air (Oxygen) robs coffee of its strength and flavor.

Just read these amazing facts established in the laboratories of a leading Eastern University:

(1) Loose or bag coffee loses 65% of its flavor in nine days after roasting.

(2) Coffee in old-fashioned cans loses 45%

of its flavor in nine days after roasting.

All due to the attack of Oxygen.

Think of it! Forty-five to sixty-five per cent of the flavor gone from nine-day-old coffee. Even vacuum packing, a definite improvement over old-fashioned methods, removes only part of the air from the can, leaving sealed in enough Oxygen to cause flavor loss and deterioration.

The new Vita-Fresh Process removes the air so completely that the most rigid chemical analysis reveals no trace of Oxygen in the Vita-Fresh can after packing.

Remember—Oxygen is the destroyer of coffee freshness and flavor. The Vita-Fresh Process alone gives full protection to coffee goodness. Maxwell House and Maxwell House only gives you this guarantee of full flavor, full value in every pound.

Convincing Evidence

that the Chevrolet Six costs less for gas, less for oil, less for upkeep

CHEVROLET In every part of the country, under every driving condition, Chevrolet owners are proving that the Chevrolet Six is the most economical car you can buy. Here are a few letters out of thousands received from owners, giving actual facts and figures. Combined with Chevrolet's low prices and many quality features, this testimony definitely points to the Chevrolet Six as the Great American Value.

Twenty beautiful models, **\$475 to \$675**

All prices f. o. b. Flint, Michigan, special equipment extra. Low delivered prices and easy C. M. & C. terms. Chevrolet Motor Company, Detroit, Michigan

"Lower cost per mile each year"

Starting with one Chevrolet roadster in 1926, adding 21 in 1927, our fleet of Chevrolets has grown to a total of 110 coupes. The cost of operating has been very satisfactory, each year showing a lower cost per mile than the previous year.

C. C. Masie, President
Northrup, King & Co.
Minneapolis, Minn.

"Lower cost per mile"

Your slogan "For Economical Transportation" is indeed a very true one, for our Chevrolet trucks and passenger cars have given us lower operating costs per mile than we have ever had before in either type of service.

D. N. Johnson, President
Dixie Oil Corporation
Moline, Ill.

"I am satisfied"

I recently completed a 4200 mile trip. I used 239 gallons of gas for an average of 18 miles per gallon, and 30 quarts of oil. I averaged better than 500 miles per day with no physical strain whatsoever. To say that I am satisfied from the standpoint of low cost of operation as well as mechanical performance, would be putting it mildly.

Peter J. Cantone
Tulsa, Okla.

"No one could ask for more"

On a trip between Syracuse and Raleigh, North Carolina in a new Chevrolet special sedan we covered 1720 miles, using eighty-four gallons of gasoline or an average of 20.8 to the gallon. Certainly no one could ask for more in smoothness of driving, ease of handling and control and the utmost of convenience, comfort and economy in its operation.

Geraldine C. Fitzgerald
Syracuse, New York

"22 miles to the gallon"

In a little over three months I have driven my Chevrolet coach eight thousand seven hundred miles at no expense whatever and I am getting better than twenty-two miles to the gallon. I had a 1929 coach and drove it sixty-two thousand miles with no major repairs.

John Bartholomew
Sheriff of Newton County
Kentland, Ind.

"I was not surprised"

I recently won \$75 by driving a stock Chevrolet Six 30.2 miles on a gallon of gasoline. I was not surprised at this result, because our own Chevrolet Six has been driven over 25,000 miles and still gives better than 21 miles per gallon. We have had the valves ground only once. We, of course, drive much faster than the speed driven during the contest.

Mrs. L. W. Eshenshade
Mansfield, Ohio

"3c a mile for 66,000 miles"

During the first year I drove this six-cylinder Chevrolet coach 66,000 miles and during this period I kept an accurate record of costs. The average cost per mile including depreciation, repairs, tires, oil and gas was three cents per mile for the entire 66,000 miles.

Wilbur Connell
Wholesale Newspaper Distributor
Orlando, Florida

"16,281 miles—no repair expense"

I have driven 16,281 miles over roads of all kinds and I could ask for no greater performance than I get from my car. The engine has had no adjustments nor has the carbon been removed, and I feel confident that the car will run another 3,000 or 5,000 miles before either is needed.

F. M. Frey
John Melady & Co.
Two Broadway, New York, N. Y.

"Unusual economy"

I am especially pleased with the unusual economy, low maintenance expense and smoothness of operation. The operating expense on the new Chevrolet is astoundingly small. Our cars average from 18 to 25 miles per gallon. The oil consumption is positively nil compared with other high speed motors.

Wm. Taggart
Greenville, Miss.

"Powerful and economical"

I have been operating a 1930 Chevrolet for the past eight months and have found same to be a powerful car and economical to operate. I average from twenty to twenty-five miles per gallon. The fact that this is my fifth Chevrolet speaks well for my personal opinion of this make of car.

Russell T. Twiss
Seattle, Wash.

"No hokey?"

I get an average of eighteen miles per gallon of gas—and I get it. No hokey! I change oil every thousand miles without adding any to the original change. My repair bills are low—in fact, since October, 1930, the only expense I've had on my last car is valve grinding.

Leo J. Fell
'The Northwestern Mutual Man'
Yankton, S. Dak.

"Over 100,000 miles"

Our 1930 Chevrolet has carried, daily, over 1,000 pounds of paper over a mountain road, averaging twenty (20) miles on a gallon of gas. The brakes were relined once at past 81,000 miles. This car... when traded in had over 100,000 miles to its credit, never missed a single trip and was never pulled in for repairs.

Neal Logan
Bristol Pub. Corp., Bristol, Va.-Tenn.

"Between 55 and 70 m.p.h."

Hundreds of miles of mountain driving were necessary on this 3000 mile tour and not once did I change gears, nor did the motor become overheated. I drove at 55 to 70 miles per hour, and averaged over 20 miles to a gallon of gas. I drained oil every 800 miles and it was never necessary to add oil between drainings.

Ray E. Simmons
City Comptroller
Springfield, Ill.

"As economical as any car could be"

I have tried out the gasoline mileage and have been able to get from twenty to twenty-one miles per gallon. I also find that I can drive a thousand miles on six quarts of oil. This shows that the Chevrolet car is as economical as any car could be to operate.

Myron H. Hale
Kenosha, Wisc.

"\$10.00 would cover repairs"

On the 26th of May, my Chevrolet coach was six months old; the speedometer reading was 19,031 miles. I did not keep a record on repair cost but believe a \$10.00 bill would cover repairs made on my car. My territory takes in practically four states, including the "pan-handle" section of Texas, and a car to stand up under the strain put on it certainly has to be a real automobile.

Oliver V. Ortmeyer
Little Rock, Ark.

"Not one cent for repairs"

I have driven this car twenty-one thousand miles and have not had one cent of expense for mechanical repairs during that time.

W. E. Hooper
Smith Center, Kansas

"Less than 3c per mile"

I have driven this sedan 63,000 miles and it is giving me good service yet and runs good. I have operated this car for less than three cents per mile. I never have to add any oil, and get better than 20 miles to a gallon of gasoline.

C. C. Woodruff
Creston, Iowa

"Have had no expense"

I have 14,000 miles on my Chevrolet and as for economy I have had better than 20 miles to the gallon. Have had no expense. Performance is wonderful in the mountains as well as on the level.

Paul L. Funke
Nebraska City, Nebr.

"One valve grind in 31,000 miles"

I have driven my Chevrolet Six 31,000 miles, using it every day. The total expense has been one valve grinding job, brakes relined once, and a set of tires. I might mention that I used the original tires for 25,000 miles. I have averaged better than 20 miles to the gallon.

C. M. Gortner
Rock Island, Ill.

"Record I am proud of—"

My six-cylinder Chevrolet coupe has made a record I am proud of. Mileage, 44,004; average better than 20 miles per gallon of gasoline; 1,500 miles per change of oil with none added between times; first set of tires averaged 33,000 miles each; engine pan never removed.

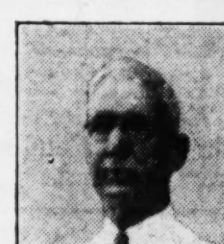

F. G. Clark, President
Clarkspeed Truck Company
Pontiac, Michigan

"Spent nothing for repairs"

I have been driving one of your Chevrolet Sixes for some time, and I have been considerably impressed with the economy of operation and maintenance; as a matter of fact I have not spent any money at all for repairs. My costs of operation have been limited entirely to gas and oil.

Russell E. Gardner, Jr.
Reinholdt & Gardner
St. Louis, Mo.

"Through rain, hail, mud and cyclonic winds"

My sedan has traveled 21,000 miles to date with but a nominal repair expense, over roads of New Mexico, Texas, Oklahoma, Kansas, Nebraska, Wyoming, Utah and Colorado, through rain, hail, mud and cyclonic winds—averaging about 21 1/4 miles per gallon.

Arthur J. Davies
Denver, Colorado

"96 miles for 58c"

I just drove 96 miles on four gallons of low test gasoline for fifty-eight cents. That's what I call economical transportation.

G. B. Bunker
The Radio Doctor
Beloit, Wisc.

"Regardless of hard driving"

I have driven my Chevrolet 33,000 miles and have continuously averaged better than 20 miles to the gallon of gasoline and change my oil every 800 miles, never adding new oil to the old. My drivers and myself use this car harder than the average but it has only cost me \$12.00 for repair.

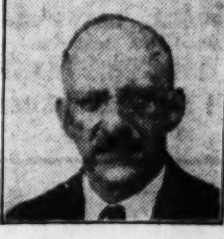

R. R. Belcher
Star Cleaners
Palestine, Texas

"Wonderful mileage?"

The operation cost of my 1930 Chevrolet is very small, the gas mileage averaging above 20 miles to the gallon. We use no oil except the change at thousand mile intervals and the tires, if kept properly inflated, give wonderful mileage.

Willis A. Charlton, Mgr.
Hester Dairy
San Jose, Calif.

"Through Texas and New Mexico"

After driving my Chevrolet Six 370 miles around town, I took it on a 4500-mile trip through Texas and Mexico, over every conceivable road and weather condition. We averaged better than 21 miles to the gallon of gasoline, changed oil 3 times and did not add any in between.

Jack Bernstamm
Miami, Florida

"10,000 miles in 8 weeks"

The ten Chevrolet sedans that we purchased from you on May 28th, 1931, have all averaged more than ten thousand miles. We have yet to expend our first dollar for cost of maintenance other than gas, oil and grease.

Eugene J. Hoerd, Pres.
John J. Cronin, Inc.
Albany, N. Y.

"Have never spent a cent for repairs"

After driving a 1929 Chevrolet Six for 25,000 miles over all kinds of roads, I was so well satisfied that I bought another Chevrolet Six coupe in 1930, and to date have put on 22,025 miles and have never spent a cent for repairs in the line of parts as yet.

RANDOM SNAPSHOTS AS ST. LOUIS PUBLIC SCHOOLS OPENED THEIR DOORS
—By a Post-Dispatch staff photographer

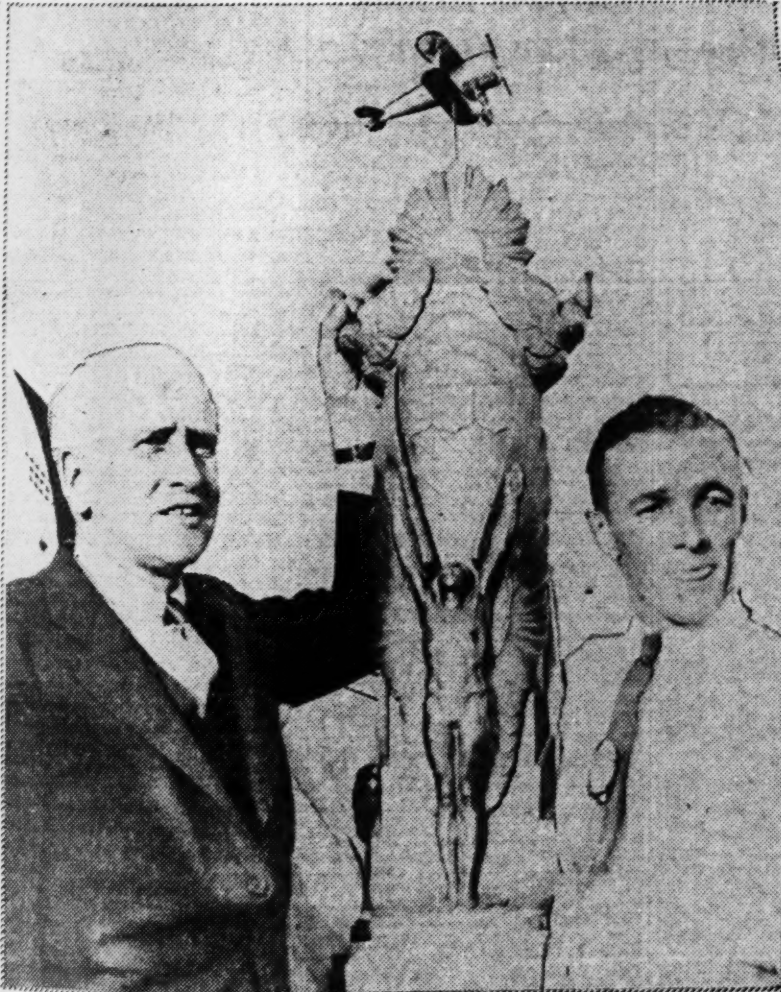

Mother brings a new pupil.

The home gardener bringing proof of his patience and industry.

To adults it was just another day, but to these and about 90,000 others of similar ages, it meant lessons and many months of homework—for dad and mother, usually.

TRAVELED FASTEST IN AIR RACE

SPEED KINGS

Maj. James Doolittle, on left, and Capt. Franks Hawks photographed together at the Cleveland air races.

Lowell Bayles of Springfield, Mass., receiving the Thompson trophy presented by Charles Thompson (left) for going over 100-mile course at Cleveland at average speed of 236 miles an hour.

KEENEST EYE AT MATCH

HER EYES WON

Miss Nadia Vidy, Parisian, victor in a contest in the French capital to find the city's most beautiful pair of eyes. She is a brunette and her eyes have a greenish tinge.

A NEW PARACHUTE RECORD

Sergt. Reginald A. Herin of Jackson, Miss., member of the State's National Guard, winner of President Hoover trophy at Camp Perry tournament.

George Quick, left, pilot of the plane from which Bert White, right, jumped from an altitude of 27,000 feet at Cleveland air meet. The record is unofficial, however. White held the previous record, too.

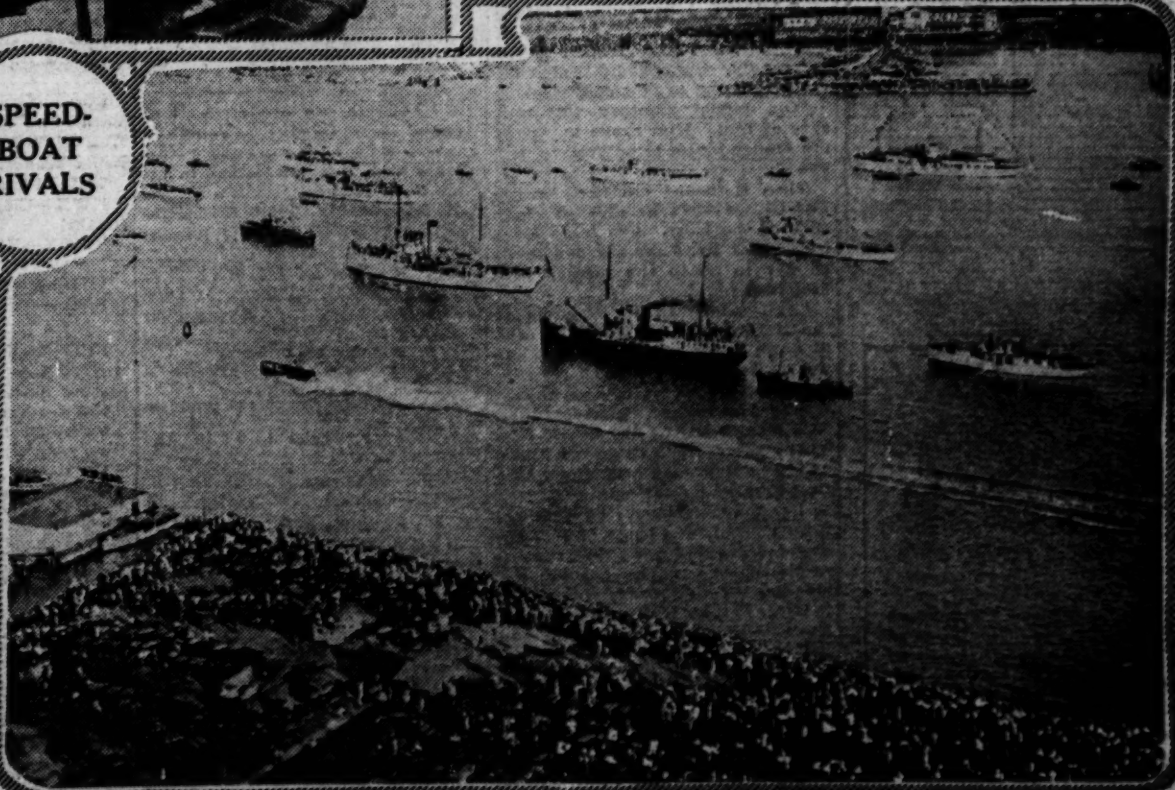

A JOB FOR THE ARMY TRANSPORT SERVICE

Col. and Mrs. E. V. D. Murphy, and their 12 children, in San Francisco on their way to Honolulu where Col. Murphy will take command of the Twenty-seventh Infantry, U. S. A.

Gar Wood congratulating Kaye Don of England on his victory in first race for the Harmsworth trophy on the Detroit River.

SPEED-BOAT RIVALS

General view on the Detroit River as Kaye Don's motor boat, Miss England II, was coming down the stretch towards the finish mark, well ahead of Gar Wood and Miss America IX.

URGES SALES TAX OF HALF PER CENT ON ALL ARTICLES

Senator Reed of Pennsylvania Makes Proposal to Broaden Base of U. S. Government Revenue.

TWO BILLION A YEAR ESTIMATED RETURN

He Would Plug Up the Leaks in Levies on Incomes but Leave the Rates About as They Are

By the Associated Press.
WASHINGTON, Sept. 10.—Enactment of a general sales tax was proposed today by Senator David A. Reed of Pennsylvania, a high ranking Republican on the Finance Committee.

Reed, who is close to Secretary of the Treasury Mellon and the administration, advocated a tax of one-half of one per cent on all commodities.

He said he would retain the present income tax also, but would plug up some of the "leaks" which he described as permitting capitalists to evade the income levies.

Reed said he had not discussed his plan with Mellon, but he arranged to see the Treasury head late today. His views, however, are in line with those previously expressed by Mellon to the effect that the present tax base is too narrow and new taxes are necessary.

Against Army-Navy Cuts.
Reed opposed the views of Chairman Wood of the House Appropriations Committee on a proposal to reduce further expenditures on the Army and Navy.

Reed said the cost of national defense has now been cut down close to the "danger point." Wood had favored reductions. Reed is chairman of the Senate Military Affairs Committee.

Reed's views also are in opposition to those of Senate Republican leaders including Watson of Indiana, who is opposed to any tax revision next session. Reed also warned against any further inroads on the Treasury by the veterans through additional cash payments on their bonus certificates.

"If the bonus keeps on," he said, "we will inevitably see the army and the navy cut below the danger point. I don't believe the veterans are going to ask for a bonus at the cost of national defense."

Reed made it clear that he was against any modification downward of the inheritance or estate tax, describing it as a most just levy. However, he disagreed with the Republican independents, who propose higher income taxes.

"I believe," he asserted, "that we have reached the point of getting the best returns out of the incomes on the rates we now have. If we put the rates higher the rich simply will evade them and there is no way out of it."

To get more returns on the income taxes from the rich, Reed advocated the abolition of the capital gain and loss tax. He said the rich were depriving the Government of enormous sums through the provision allowing deduction of capital losses in the computation of their incomes.

\$2,000,000,000 a Year.
Reed said he would apply the sales tax upon all commodities. He estimated such a tax would bring in at least half of the present expenditures of the Government of about \$2,000,000,000 a year.

He said he would make this tax a permanent part of the Federal revenue system rather than merely an emergency measure to meet the prospective \$1,000,000,000 deficit in the treasury for next year.

"The present dilemma of the treasury," said Reed, "illustrates the unwisdom of having a very narrow tax basis. We have been trying to get our Federal revenue out of one-half of one percent of the population. We are doing this on the theory of taxing those best able to bear the burden."

"But as a matter of fact we haven't actually reached that group. It isn't the rich man who is actually paying the tax, but it is the big earner. It is not the capitalist or doctor or worker whom we are taxing."

"The capitalist has no trouble at all in minimizing his burden. The moment money earning diminishes while the bottom falls out of the income tax. The results show it is necessary for tax revision rather than for a tax increase."
